## THE EARTH IS TILTING

And In 1,000 Years Chicago, Detroit and Benton Harbor Will Be Under Water.

## VERY STARTLING PREDICTION.

The Current of the Great Lakes Will Be Changed and Niagara Will Dry Up.

DETROIT, August 14.—Two papers were read before the members of the scientist's convention here Thursday which may well carry terror to the inhabitants of the lake cities, especially Detroit and Chicago. The first was by Professor Gilbert and the second by Dr. J. W. Spencer of Washington. The latter asserted that in the course of time Detroit would be overtaken by a fate that was later in store for Chicago, and that both would be drowned out by the encroaching waters of the lakes, which have made alarming progress in the last fifty years.

Dr. Spencer said that in 1880 he discovered that the Erie basin emptied not by the Niagara river, but by a buried valley directly into the head of Lake Ontario, and that the Niagara river and falls are a really modern feature.

"In the course of time Niagara will cease to exist entirely, as all the waters in the great lakes will be turned over Chicago and drained into the Mississippi. The changes in the lake levels are all of one sort; they all show a rising of the land at the north and northeast, as compared to the land at the west and southwest. It appears that the whole lake region is being tilted toward the south-southwest. The rate is such that of two points a hundred miles apart the northern rises five inches in a century as compared with the southern.

"The discharge thus obtained will be a mere anticipation of nature for the tilting of the lake basin would have produced the same results in less than 1,000 years. It is estimated that in the future all the overflow from the upper lakes will go to the Illinois; the Detroit and Lake St. Clair rivers will carry the water from Lake Erie to Lake Huron instead of Huron to Erie, and the Niagara river and falls will run dry."

He predicted that unless the authorities of the Windy city and Detroit make preparations for this change a catastrophe a thousand times more awful than the Johnstown disaster would occur. He said that it was high time for the city fathers of Detroit and Chicago to begin raising the level of their streets by dozens and hundreds of feet. Time would see the present site of Chicago hundreds of feet under water and the tall spire of Detroit's city hall a playing ground for innumerable fresh-water fish.

## MILK INSPECTOR.

He is Sampling the Products of St. Joe Dairies.

J. B. Barron, a milk inspector sent out by the agricultural department of the state, is getting samples of the products of St. Joseph dairies and making an analysis of the same with a view to detecting its character as a fit article for food. The St. Joseph milkmen don't know that their goods are being inspected and if any of them have been giving their customers a spurious article they are liable to have some very unpleasant experiences. The inspector will probably quietly drop in to Benton Harbor when he completes his work at St. Joseph.

The company has five men at work on the extensions and this number will be increased.

## WANT HIM RELEASED.

Lawyers Cady and Riford Interceding for Fred I. Snow.

Lawyers Cady and Riford have been importuning of the sheriff that Fred I. Snow be released from custody. They maintain that the officer has no right to detain him; that he was not being held on a warrant and his detention was illegal, and he would have an action for damages against the officer.

The lawyers were informed that Snow was detained upon the advice of Prosecutor Valentine who considered from advices received from the east that he was a criminal and appeared in the role of a fugitive from justice, and his arrest and incarceration was a part of the officer's duty and no possible annoyance from Snow could come out of it.

Detective Parker, of Providence, R. I., left that city Thursday for Benton Harbor and he will reach here some time today. He has advised Officer Crawford that the requisition papers have been procured and were forwarded here, so that any objection Snow may raise to accompanying the officer back to Providence will not avail him much.

Snow spends his time in jail reading THE EVENING NEWS, which reaches him regularly, and magazines brought him by friends. Yesterday a kind pastor of one of the city churches carried some fruit to his cell, which the prisoner ate with considerable rapaciousness.

Letters received from Secretary Howe, of the Lowell, Mass. Y. M. C. A. brand Snow as a notorious swindler. It is alleged that he has accounts with Lowell, Mass. jewelers aggregating \$400 for rings, bracelets and watch chains purchased for young ladies there; that when he left Lowell to come to Benton Harbor he had \$40 of church funds realized from the sale of tickets for a trolley party. Snow's father is a common laborer, with no means except what he earns by day's labor. He was once well-to-do, but repeated payments of his son's defalcations ruined him.

The sympathy felt for Snow when he was arrested is disappearing with the news of his real character.

## BIG WEDDING.

It Will Occur in Buchanan Next Tuesday.

BUCHANAN, August 14.—The marriage of Glenn E. Smith and Miss Bertha B. Peck, two very popular young members of society in this village, will occur next Tuesday at 1 o'clock in the afternoon, the ceremony to be performed by Rev. Cleaver, of Three Rivers. The wedding will be attended by a large number of the friends of the young couple and promises to be a very happy event.

The groom to be is the owner of a large boot and shoe and gents' furnishing goods establishment in this village. He is the son of M. H. Smith, a former landlord of the Hotel Whitecomb, at present employed as state agent by the National Building & Loan association of Detroit. Miss Peck is the daughter of John F. Peck, a prominent citizen here.

## AMONG THE CRIMINALS.

where the County Battalion will meet next year.

The reunion of the Berrien county battalion at Three Oaks was brought to a close last evening and a unanimous expression on the proposition of holding the next meeting in St. Joseph was secured. The meeting was very interesting and would have been a happy one but for the fact that many faces of veterans who attended a year ago were absent and in a world far beyond. Those who attended the reunion from St. Joseph—County School Commissioner Clark, Registrar of Deeds French, Charles Moulton and L. E. Merchant—arrived home last evening.

#### TWO MARRIAGES.

They Occurred in St. Joseph Yesterday.

Chicago couples are gradually learning the advantages of St. Joseph over Milwaukee for nuptial ceremonies. Two Chicago couples were married in St. Joseph yesterday, and up to the present time this year has been the most prosperous for St. Joseph pastors in the line of marriages that has been experienced since that city gained its distinction as a summer resort. With the present increase continued it will not be long until Rev. Hunsberger, the celebrated matrimonial divine of Milwaukee, will have some dangerous competitors in St. Joseph.

The Chicago couples married yesterday were Patrick I. Kelley and Anna E. Kerr, 23, Chicago; and Lole G. Zimmerman, 32, same; and Miss Lole Zimmerman, the former being married by Justice Baldrey and the latter by Rev. Niergarth.

#### Marriage Licenses.

#### HE COULD FORGIVE HER.

For In His Opinion Mrs. Siddons Did Not Marry an Actor.

Mrs. Siddons, the actress, was born in 1755 at the Shoulder of Mutton inn, Brecon, South Wales, of parents connected with the theater, her father, Roger Kemble, being a strolling manager. The child Sarah, was reared in a theatrical atmosphere, and at 10 she was playing Ariel.

As she grew up she became very beautiful and had many admirers, among whom was Henry Siddons, a young actor in her father's company, who had little difficulty in winning the girl's heart. Mr. and Mrs. Kemble had made up their minds that Sarah should not marry in the profession, in consequence of which they strenuously opposed the marriage, and young Siddons, in a fit of retaliatory humor, composed a song detailing their opposition and his trials, which brought about his speedy dismissal from the company. Sarah left the company, too, and hired out as lady's maid in Warwickshire for two years.

During this time the lovers carried on a lively correspondence and finally, gaining the reluctant consent of the Kembles, were married at Trinity church, Coventry, in 1778, when Sarah was 18.

It is said that Mr. Kemble told her if she ever married an actor it would make him discard her forever. After her marriage he said, "I may forgive you without breaking my word, for you have certainly not married 'an actor,' whatever the gentleman himself may think is his vocation." This is on authority of Lady Eleanor Butler, who knew the persons.—St. Louis Globe-Democrat.

#### FOR THE CHILDREN.

Something New That Will Stand the Wear and Tear.

#### Yellowstone Lake.

"There is an individuality about lakes. Perhaps the most striking thing about Yellowstone lake is its high altitude. It is up among the mountains and clouds in Yellowstone park nearly a mile and a half—7,741 feet—above where the sportive summer girl sits on the beach at the Atlantic ocean while the lazy wavelets ripple about her dainty toes. But as high as it is the mountains rise higher still by thousands of feet. In a solemn, owl-like fashion they blink down at the lake, and the lake blinks back at them. These mountains are well defined peaks, and cones, and turrets, and nearly all are named. Some of them are in this way redolent of the old explorers, the men who first braved the perils and difficulties of an unknown, untrodden wilderness. Such are Colter peak and Mount Doane."

The above is taken from "Wonderland '97," a beautiful new Tourist book published by the Northern Pacific railway. It will be mailed to any address upon receipt of six cents in stamps by CHAS. S. FEE, Gen'l Pass. Agent, St. Paul, Minn.

Mrs. L. N. Fitch has opened hairdressing parlors in the Sweet block, near O. Perring's photograph gallery, and will do all kinds of hairdressing.

Chicago couples are gradually learning the advantages of St. Joseph over Milwaukee for nuptial ceremonies.

"The old fashioned molasses is rapidly disappearing as an article of commerce," said a prominent grocer, "and in its place have come a number of sirups which are more costly and by no means as satisfactory, especially to the little ones, who delight, as we did when we were young, in having 'lasses on their bread. Most of the molasses goes into the distilleries, where it is made into rum, for which, notwithstanding the efforts of our temperance workers, the demand is constantly on the increase, especially in the New England states and for the export trade. The regular drinker of rum will take no other liquor in its place if he can help it. It seems to reach the spot more directly than any other dram."

"The darker brown sugars have also disappeared, and they are not likely to return, owing to the methods of boiling and the manufacture. Granulated sugar is of the same composition, as far as saccharine qualities are concerned, as loaf, cut loaf cube and crushed and differs from them only in that its crystals do not cohere. This is because it is constantly stirred during the process of crystallization. The lighter brown sugars taste sweeter than the white, for the reason that there is some molasses in them. Housekeepers have difficulty these days in finding coarse, dark sugars, which are always preferred for use in putting up sweet pickles, making cakes and similar uses. As they cannot get brown sugar any more, it may be well for them to remember that they can simulate brown sugar by adding a teaspoonful of molasses to each quarter of a pound of the white granulated sugar. This combination does as well in all household recipes that call for brown sugar as the article itself, and besides it saves them a great deal of hunting for brown sugar, which, as said before, has disappeared from the market."—Eastport Sentinel.

It appears that the whole lake region is being tilted toward the south-southwest. The rate is such that of two points a hundred miles apart the northern rises five inches in a century as compared with the southern.

"The discharge thus obtained will be a mere anticipation of nature for the tilting of the lake basin would have produced the same results in less than 1,000 years. It is estimated that in the future all the overflow from the upper lakes will go to the Illinois; the Detroit and Lake St. Clair rivers will carry the water from Lake Erie to Lake Huron instead of Huron to Erie, and the Niagara river and falls will run dry."

He predicted that unless the authorities of the Windy city and Detroit make preparations for this change a catastrophe a thousand times more awful than the Johnstown disaster would occur. He said that it was high time for the city fathers of Detroit and Chicago to begin raising the level of their streets by dozens and hundreds of feet. Time would see the present site of Chicago hundreds of feet under water and the tall spire of Detroit's city hall a playing ground for innumerable fresh-water fish.

## MILK INSPECTOR.

He is Sampling the Products of St. Joe Dairies.

J. B. Barron, a milk inspector sent out by the agricultural department of the state, is getting samples of the products of St. Joseph dairies and making an analysis of the same with a view to detecting its character as a fit article for food. The St. Joseph milkmen don't know that their goods are being inspected and if any of them have been giving their customers a spurious article they are liable to have some very unpleasant experiences. The inspector will probably quietly drop into Benton Harbor when he completes his work at St. Joseph.

## IN ONE WEEK.

New Telephone Line Will Reach Watervliet and Coloma.

Next Saturday the new telephone line to Pottawatomie park, Riverside, Coloma and Watervliet being constructed by the Twin City telephone company, will be completed and the service between these places begun.

As soon as this line is completed the line to Eau Claire will be built and simultaneously will be started the poles and wires toward the towns in the southern part of the county.

The company has five men at work on the extensions and this number will be increased.

## WANT HIM RELEASED.

Lawyers Cady and Riford Interceding for Fred I. Snow.

Lawyers Cady and Riford have been importuning of the sheriff that Fred I. Snow be released from custody. They maintain that the officer has no right to detain him; that he was not being held on a warrant and his detention was illegal, and he would have an action for damages against the officer.

The lawyers were informed that Snow was detained upon the advice of Prosecutor Valentine who considered from advices received from the east that he was a criminal and appeared in the role of a fugitive from justice, and his arrest and incarceration was a part of the officer's duty and no possible annoyance from Snow could come out of it.

Detective Parker, of Providence, R. I., left that city Thursday for Benton Harbor and he will reach here some time today. He has advised Officer Crawford that the requisition papers have been procured and were forwarded here, so that any objection Snow may raise to accompanying the officer back to Providence will not avail him much. Snow spends his time in jail reading THE EVENING NEWS, which reaches him regularly, and magazines brought him by friends. Yesterday a kind pastor of one of the city churches carried some fruit to his cell, which the prisoner ate with considerable rapaciousness.

Letters received from Secretary Howe, of the Lowell, Mass. Y. M. C. A. brand Snow as a notorious swindler. It is alleged that he has accounts with Lowell, Mass. jewelers aggregating \$400 for rings, bracelets and watch chains purchased for young ladies there; that when he left Lowell to come to Benton Harbor he had \$40 of church funds realized from the sale of tickets for a trolley party. Snow's father is a common laborer, with no means except what he earns by day's labor. He was once well-to-do, but repeated payments of his son's defalcations ruined him.

The sympathy felt for Snow when he was arrested is disappearing with the news of his real character.

## BIG WEDDING.

It Will Occur in Buchanan Next Tuesday.

BUCHANAN, August 14.—The marriage of Glenn E. Smith and Miss Bertha B. Peck, two very popular young members of society in this village, will occur next Tuesday at 1 o'clock in the afternoon, the ceremony to be performed by Rev. Cleaver, of Three Rivers. The wedding will be attended by a large number of the friends of the young couple and promises to be a very happy event.

The groom to be is the owner of a large boot and shoe and gents' furnishing goods establishment in this village. He is the son of M. H. Smith, a former landlord of the Hotel Whitecomb, at present employed as state agent by the National Building & Loan association of Detroit. Miss Peck is the daughter of John F. Peck, a prominent citizen here.

## Camping Strikers of Illinois Are Served with an Injunction of the Western Style.

### NO APPLICATION TO THE COURT.

Sheriff Tells Bradley He Must Move on or  
He Will Be Forced to Do So—Blows at  
Several Illinois Points—Matters Mixed  
in Southern Indiana—Effect of the Re-  
straining Order in the Pittsburgh District  
—Fight Barely Averted.

St. Louis, Mo., Aug. 14.—A special to  
the Republic from Coffeen, Ill., says:  
Bradley's army of striking miners still  
threatens the town. No attention was  
paid to the sheriff's proclamation order-  
ing the strikers to leave the county, and  
the men are as defiant as ever. Sheriff  
Randle did not return from Jacksonville  
until late yesterday afternoon. He  
drove immediately to the strike head-  
quarters to investigate for himself just  
how far his order had been obeyed. He  
was angered by Bradley's defiant atti-  
tude, but decided not to resort to force  
until today. This was done because it  
would have been impossible to marshal  
the deputies before sundown, and the  
sheriff did not want to take chances  
with the invaders in the dark. He was  
inclined also to believe that Bradley was  
bluffing, and that the camp would be  
broken during the night. If every striker  
is not off the ground and on the move  
by noon today he will go forward with  
his men and the work that peaceable  
methods have failed to accomplish will  
be done by force. Fifteen Coffeen miners  
who stopped work when Bradley came  
here yesterday notified by Re-  
ceiver Mills of their discharge, and were  
ordered to take out their tools, which  
they did.

Everything Is Peaceable at Decatur.  
Decatur, Ill., Aug. 14.—The situation  
at the different camps of miners from  
other cities was quiet last night. About  
200 men were in camp on the west, 100  
on the south and 150 on the south-  
west. Deputy heriffs guarded the roads  
in the vicinity of the camps. There  
was disorder and no sign of trouble. The  
miners obeyed quietly and without protest  
all the instructions of the officers. The  
proposition of the miners to send a  
delegation to the Decatur miners to see  
if they would not listen to argu-  
ments in favor of striking, and in case  
Decatur men refused to listen to leave  
the county, was refused by the authorities,  
apparently because of the opposition of  
the management of the coal mine.  
Manager Armstrong said he did not  
want any one talking to the men. The  
marchers were then told that they could  
not come in any way or send delega-  
tions. All of the 400 men were at work  
yesterday and will work today. All of  
the camps grew all day and night gradu-  
ally. B. B. Ray, governor's representa-  
tive, estimates the number of outside  
miners in the camp and in the city at  
600.

Made Made on Some Other Mines.  
Marion, Ill., Aug. 14.—Yesterday a  
large force of miners came in from John-  
son City, where they succeeded in shut-  
ting down work Thursday. They made  
an unsuccessful effort at the Crab Or-  
chard and Ohio Valley company's mines,  
laboring with them until 5 p. m., and  
then came here for quarters over night.  
This morning they will visit the Ohio and  
Mississippi Coal and Mining company,  
where they expect to make an effort to  
close down the works. There they will  
be met by Sheriff Parks and a large  
force of deputies, and should they refuse  
to disperse the sheriff will enforce the  
law and see that those wanting work  
have protection. The indications for to-  
day are good for excitement, and proba-  
bly serious difficulties. The authorities  
are using every means in their power  
to avoid trouble, but are ready for it if  
it comes.

Situation in Southern Indiana.  
Evansville, Ind., Aug. 14.—The miners  
at Woolley's, Gough's and Nestor's  
mines, on the Louisville and Evansville  
and St. Louis road, a few miles above  
this city, went back to work yesterday.  
They said they were loyal to the cause  
and were willing to remain idle till the  
big strike was ended, but when they  
learned that there was a partial re-  
sumption of the mines in this city fol-  
lowing the departure of the state officers  
they decided to work themselves. The  
miners at Newberg went out yesterday  
when asked to do so by the state officials  
of the miners. The miners in Bedford  
district also decided to resume work  
Monday.

### NEITHER CAMPING NOR MARCHING

Will Be Permitted in the Pittsburgh Dis-  
trict—Injunction Served.

Pittsburg, Aug. 14.—Injunctions by  
the court have put a stop to marches  
by the striking miners against the New  
York and Cleveland Gas Coal company,  
for a time at least. But in the execu-  
tion of the injunction the sheriff and his  
deputies narrowly escaped precipitating  
serious trouble. As it was the first blood  
of the strike was shed. Henry Stewart,  
one of the sheriff's deputies, struck Jacob  
Mott, a drummer of the McDonald  
band, with the edge of a brass horn  
and cut a severe gash above his eye.  
The sight of the blood wrought up the  
1,000 idle miners to such a pitch that a  
desperate conflict was imminent. The  
deputies also were excited and noisy.  
The strikers were jeering and yelling,  
and urging a further rush down the  
road. In that crowd there were enough  
angry strikers to annihilate four times  
the force of officers on the ground. Cap-  
tain Bellingham (the strike leader),  
Sheriff Lowry, Chief Deputy James  
Richards and Superintendent De Armit  
were the only cool men in the assem-  
blage.

To them belongs the credit of avoid-  
ing a riot. When Bellingham saw  
there was danger of his men getting  
beyond his control he commanded a  
halt and addressed himself to the task  
of restraining the more belligerent. So  
well were his efforts directed that he  
soon had restored comparative order.  
Sheriff Lowry had a difficult task to  
perform, but he handled it well, and  
by his coolness and good nature did  
much to neutralize the bitterness and  
arrest the march of the strikers.

When the strikers departed Sheriff  
Lowry and his force also left the field.  
The sheriff, when asked concerning his  
future movements, said: "My actions  
shall be governed largely by the de-  
velopments at the camp of the strikers.  
I am not prepared to say how I shall  
meet any particular emergency. It is  
certain, however, that if the strikers  
continue to stay at the camp they will  
be violating the terms of the injunction  
and attachments may be issued."

As the result of the serving of the  
injunctions on the marching miners and  
subsequent prevention of the march, ex-  
citement bordering on consternation ex-  
isted among the heads of the various  
labor organizations here yesterday.  
Representatives of the several organi-  
zations called at miners' headquarters  
during the day. All were more or less  
excited and wanted to devise some plan  
by which the local labor organizations  
can enter a protest against the issu-  
ance of the blanket injunctions.

### HOW WEST VIRGINIA LOOKS.

As Viewed by a Leader of the Marching  
Strikers in That State.

Cincinnati, Aug. 14.—The following  
special to The Commercial-Tribune from  
Montgomery, W. Va., was written by  
Fred Dilcher, the leader of the march-  
ing strikers in that region. "The pro-  
gress of the present strike in this field  
is wonderful. Every mine in this and  
the Kanawha valley is closed with the  
exception of Acme and one mine in  
Lens Creek. Our army marched last  
night to Mount Carbon and closed the  
mine of the Great Kanawha colliery,  
one of the largest mines on the river. It  
was intimidated by the operators that  
this mine would absolutely refuse to  
suspend operations and would fight our  
army to a finish, but we are proud to  
say that all are with us. This we con-  
sider one of our greatest victories. The  
Winifred mine voted last night to join  
the great army of strikers and this is  
another great victory for organized la-  
bor."

"This valley, which has been loading  
550 cars per day, has been reduced to  
twenty-five cars. Our army has been  
increased by new forces, and we ex-  
pect to go to New River with 5,000  
miners in line. Our army is jolly and  
in the best of condition, composed, not  
of toughs and thugs as has been re-  
ported, but of honest working men who  
are fighting for their rights. A meet-  
ing held this afternoon at this place  
was addressed by Joseph H. Vitchevatin,  
of the Allegheny Evening Record; Geo.  
Robinson, state president; W. H.  
Thompson and myself."

### STRIKE OF SCHOOLHOUSE HANDS.

Union Labor at Chicago Demands the Pro-  
scription of Non-Union.

Chicago, Aug. 14.—In an attempt to  
force the city school board to proscrib-  
non-union labor the Building and  
Trades Council of this city has ordered  
a strike on all the school buildings upon  
which men are making repairs, etc. The  
number of men involved is 2,500. If the  
strike continues for any length of time  
and non-union men are not put to work  
many of the schools will not be ready for  
occupancy when the winter term begins  
in September. Instead of meeting this  
question one way or another, the school  
board has practically dodged it.

Architect Patton, of the board, is of  
the opinion that the question is one of  
grave importance. He said: "The ques-  
tion of inserting the clause demanded by  
the unions is a serious one. Can the  
board rightly say that none but union  
men shall work on the buildings? Can  
the board deprive of the right to work  
hundreds of honest, hard-working tax-  
payers who are just as good workmen as  
the union men, but do not belong to any  
organization?" Patton has notified the  
contractors that they must continue at  
work, whether they employ union or  
non-union labor.

## BIG CAMP MEETING.

A Temporary Village of 600 People on the Banks of the Dowagiac Creek.

### A PRETTY RELIGIOUS RETREAT.

The Crystal Springs Camp Meeting Will Close Tomorrow—Local Preachers Licensed.

Seven miles from the pretty Big Four station of Berrien Centre or two and a half miles from nowhere (otherwise called Pokagon on the Michigan Central,) along the banks of the Dowagiac creek is a tract of natural forest and cleared land on which nothing is raised except the standard of the cross. The tract comprises between 37 and 42 acres of land and is known to the world as the Crystal Springs camp grounds.

Here the faithful Methodists of the Niles district meet in annual worship. There are on the grounds 100 cottages and this year besides there are twenty tents and the resident population is 600. Besides this at every service hundreds of people from the surrounding country are in attendance and the large auditorium which holds upwards of 1,000 people is quite frequently filled while on Sunday the grounds are crowded. No ground is sold for cottages but every cottage pays \$1 tax each year toward the natural expenses of the property. The people who pitch a tent for the two weeks of camp meeting are charged the same price as the cottage owner.

The grounds are beautifully located and the springs add a charm which compensates for the long dusty ride to reach the place. The larger of the springs furnishes water for the grounds and the water is pumped to hydrants located in all directions, by means of a steam engine and the direct pressure system. A visit to the spring itself, located in a valley several feet below the grounds, explains why the place is called "crystal" springs. The spring is under a cover of a circular pattern and the platform under the cover is large enough to accommodate several people. In the centre of the platform is a round opening about three feet in diameter and about this opening is a woven wire enclosure. At one point of the enclosure is a door which may be opened and the visitor is permitted to look down into the spring. The water is as clear as any crystal and through the many feet of water the bottom of the spring can be seen. The water is so clear and the bottom so clean that the sight makes the spectator thirsty. The spring flows nearly a barrel a minute and the water is as cold as ice.

The camp grounds were formerly used by the state as a fish hatchery but the water from the spring was so cold that only the hardier varieties of fish could be propagated. The large artificial ponds are now full of German carp and the clear water makes it a pleasant pastime to watch the movements of the fish.

The camp meeting is not a money making scheme. The receipts of the meeting last year were \$1,368.14 and the money was all used in defraying the expenses of the year. The grounds are valued at \$12,000 and the district owes an indebtedness of \$1,770. When prosperity comes it is hoped that this small debt will be liquidated.

At the meeting Thursday morning Bishop Bowman preached a grand sermon taking for his text, "But to do good and communicate forget not; for with such sacrifices God is well pleased." Yesterday afternoon Mrs. De Line, of Benton Harbor, the returned missionary from India gave an address and this morning Rev. W. P. French was on the program for a sermon. The presiding elder wanted Mr. French to preach the Sunday sermon but the Benton Harbor pastor dislikes to deliver sermons at campmeeting and he had sufficient influence with Elder Carlisle to get himself sidetracked for a week day sermon.

The last district conference of the year was held on the grounds under the trees yesterday afternoon. Every minister holding a charge in the district was present. Local preachers' licenses were granted the following: L. L. Jones, Herbert N. Willis, Charles I. Gray, Watervliet; Truman I. Parker, Lawrence. The licenses of the following local preachers were renewed: John H. Diehl, Watervliet; James C. De Vinne, Buchanan; Henry P. Maley, Niles; Robert H. Allison, Dayton; Isaac Voorhees, Bridgeman; William Camfield, Stevensville; J. S. Barker, Benton Harbor; James W. Springstein, Cassopolis; and Charles S. Lang. The licenses of all the exhorters on the district were renewed. Lawton was selected as the place for holding the next district conference.

Rev. J. W. Carlisle of Niles is now closing his last year as presiding elder on this district and he is looking out for a good pastorate for himself. When a man secures a good charge or is presiding elder in the Methodist church it is the custom when from the time limit is reached to look for a new pastorate.

good." The presiding elder receives a salary of \$1,500 per year and of course he expects something as good. President McKinley is continually giving turned down office seekers "something equally as good" but the Methodists do in performance that which the president does in promise. The campmeeting will close for this year Sunday evening.

### THOUSANDS OF MACCABEES.

They Will Spend a Day Here in September.

Early in September H. H. Leonard, the successful excursion agent of the Graham & Morton line, will bring between 4,000 and 5,000 Maccabees to these cities for a day's outing. They will include the officers of the Great camp of Illinois and members from tents in all parts of the state. It will be the largest excursion ever brought to this city by boat. Two of the Graham & Morton steamers will be required to carry the immense crowd.

### TWO MARVELS.

They Will Appear in St. Joseph Tonight and Tomorrow.

The marvelous mediums, Frank and Lillie Vernley, will appear at the Academy of Music tonight and tomorrow night, in a series of exciting and mystifying demonstrations in spiritualism. They are the only mediums who successfully materialize on a brilliantly lighted stage. There will be some startling cabinet manifestations while the mediums are tied by a committee from the audience. Their spirit friends will hover about them, touching them, ringing bells, playing upon harps, guitars, etc.

### WILL GO TO COLOMA.

South Bend Man Talks About M. B. H. & C.

South Bend Tribune: John M. Caulfield, chief promoter of the new railway enterprise between Columbus, O., and Benton Harbor, known as the Milwaukee, Benton Harbor & Columbus railway, was at his home in this city Saturday for the first time in several weeks.

The line will be extended from Benton Harbor north to Coloma, South Haven and Saugatuck. At Coloma a spur will be run out to the popular resort, Paw Paw lake, and at Covert it will connect with the narrow gauge line running from South Haven to Lawton. This line Mr. Caulfield's company has purchased and will at once take steps to change the gauge to the broad kind and to extend the road east from Paw Paw to Kalamazoo, and thence on to Toledo. The road goes through one of the richest agricultural and fruit regions of southern Michigan, but owing to its narrowness has never been successful in competing with other lines.

### IS UNSAFE.

Wagon Goes Through the Highway Bridge.

Last evening a wagon loaded with two logs which were being hauled to a St. Joseph mill went through the highway bridge over the St. Joseph river. The front wheel on the right side of the wagon cut through the thin covering of worn pine planking and dropped to the hub.

The accident prevented cars from crossing the bridge for an hour and passengers had to be transferred. The unsafe condition of the structure is now fully illustrated and whoever is responsible for keeping the bridge in repair should take warning from last night's incident.

If only one thickness of planking can be placed between the car tracks the authorities should require that it be of oak. The pine planks wear down to a dangerous condition in a month with the heavy traffic carried on over the structure, and it is to be marveled at that horses have not suffered the loss of legs by broken planks before this.

### 800 CYCLISTS.

They Will Land in Benton Harbor Tomorrow.

H. H. Leonard, the manager of the great Chicago cyclists' excursion to the twin cities tomorrow, arrived here this morning and is arranging accommodations for the 800 wheelmen who have chartered the Graham & Morton steamer, City of Louisville, and will leave Chicago at 11:30 o'clock tonight.

The cyclists will be entertained at the Lake View and Hotel Benton. After breakfast they will board the river steamer Tourist and May Graham and spend several hours amid the shades of the St. Joseph river. Returning they will assemble at the bathing pavilion and buffet the billows of Lake Michigan.

After dinner the St. Joseph contingent will ride to this city and joining the cyclists entertained at the Hotel Benton will ride in a huge company to the pavilion at the Benton Harbor terminus of the Electric railway where a rare program of field sports will be given. The wheelmen will include some of the leading and wealthiest business men of Chicago and altogether will represent a distinguished company. Mayor Harrison, captain of the Lincoln Cycle club, is expected to be with the party.

The two cities should make an exertion to receive the cyclists with at least some small exhibition of hospitality, and it would no doubt be greatly appreciated if Frazell's military band was employed to escort the wheelmen from the Hotel Benton to the pavilion.

Included in the party will be members of the Chicago, First Regiment, Lincoln, South Side, Illinois, Woodlawn and Thistle cycling clubs, the Englewood wheelmen, the Bankers Athletic club and Lakeview Clarendon wheelmen.

### WHAT TOMMY SAID.

Uncle John—Well, what do you mean to be when you get to be a man?

Little Tommy (promptly)—A doctor, like pa.

Uncle John (quizzically)—Indeed; and which do you intend to be, an allopath or a homeopath?

Little Tommy—I don't know what them awful big words mean, Uncle John; but that don't make any difference, 'cause I ain't going to be either of them. I'm just going to be a family doctor and give all my patients Hood's Sarsaparilla, 'cause my pa says that if he is a doctor, he's 'bliged to own up that Hood's Sarsaparilla is the best family medicine he ever saw in his life.

The farmers of southern Michigan and northern and eastern Indiana held a monster reunion at Pleasant Lake, near the Michigan line, Thursday. The address of the day was delivered by ex-Gov. Cyrus G. Luce, who discussed the various phases of a farmer's life. His address entirely eschewed politics and was a typical agricultural speech, addressed to a typical assemblage of Michigan and Indiana farmers.

### MISERIES' BORDERLAND.

There's an intangible, but nevertheless definite line that exists in life. Step beyond its border and the gloom of pain, the poison of despair stares you in the face. Health is the sunny land of life, disease the gloom. It is asserted that the mysterious border once crossed there can be no returning. In many, many cases it is true, provided an unskillful practitioner has the individual in charge. Not so with Drs. B. S. & Co., the eminent specialists of Muskegon. Under their manipulation and scientific discoveries, and their application, all functional and organic troubles and their consequent evils are banished perfectly and permanently. The victim, the sufferer, regains his health and strength and becomes again a sound being. Their marvelous skill and ability is not the result of chance or "luck," but the legitimate growth of preserving application and unrestrained research. Their cures are vouched for and substantiated by living proofs, by the healthy beings who have been restored through Drs. B. S. & Co's skill.

These renowned physicians will visit St. Joseph, Lake View hotel, Tuesday, August 24; Benton Harbor, Hotel Benton, Wednesday, August 25; Coloma, Teeter hotel, Thursday, August 26; in the private parlor of the hotels.

### Yellowstone Lake.

"There is an individuality about lakes. Perhaps the most striking thing about Yellowstone lake is its high altitude. It is up among the mountains and clouds in Yellowstone park nearly a mile and a half—7,741 feet—above where the sportive summer girl sits on the beach at the Atlantic ocean while the lazy wavelets ripple about her dainty toes. But as high as it is the mountains rise higher still by thousands of feet. In a solemn, owl-like fashion they blink down at the lake, and the lake blinks back at them. These mountains are well defined peaks, and cones, and turrets, and nearly all are named. Some of them are in this way redolent of the old explorers, the men who first braved the perils and difficulties of an unknown, untrodden wilderness. Such are Colter peak and Mount Doane."

The above is taken from "Wonderland '97," a beautiful new Tourist book published by the Northern Pacific railway. It will be mailed to any address upon receipt of six cents in stamps by CHAS. S. FEE, Gen'l Pass. agent, St. Paul, Minn.

Mrs. L. N. Fitch has opened hair-dressing parlors in the Sweet block, over I. O. Ferring's photograph gallery and is prepared to do all kinds of work in that line. Switch-making a specialty.

Ex-Governor Altgeld thinks the present price of wheat is a losing thing for the farmers. That is, under the bi-metallic standard he says the price of wheat would now be \$1.50 per bushel. The ex-governor always was a good theorist.

BY resorting to a bloody riot among themselves to keep the records of the order at Fulton, Ill., the members of the Modern Woodmen have not shown the fraternal spirit they teach. It is to the credit of Michigan Woodmen, however, that they are not mixed up in the dispute.

THE Palladium today prints an editorial scoring the St. Joseph police who blindfold their eyes in the presence of a prize fight but watch for the law abiding citizen who technically breaks some law that he observes in spirit and intent. THE EVENING NEWS endorses the condemnation. But why stop there? The gravest crime committed in St. Joseph this week was that committed by the brute who attacked and disfigured John Higman Jr., perhaps for life. And still the Palladium which pretends to be so just has never condemned the villainous attack of the man Shuler. The reason for this is that the Palladium and Press drink out of the same trough. The Palladium gives the Press Benton Harbor news in exchange for St. Joseph news. The Palladium probably would like to denounce the outrage but in this as in many other matters it is muzzled.

Outlook Encouraging for Uniformity.  
Pittsburg, Aug. 14.—The "true uniformity" committee reports that a number of signatures have been secured to the agreement and that the outlook is very encouraging. The names of the signers were not given out, but it was intimated that the number was quite large and that it included some of the larger firms. From this time forward a regular and systematic canvass for signatures to the agreement will be made. J. B. Johnston, a local newspaper man, has been appointed secretary of the committee on revision, with instructions to visit every operator in the district, elucidate the terms of the article, and, if possible, secure his signature. Inasmuch as many of the operators are away from the city, it is expected that the canvass for signatures will last many weeks, possibly until Sept. 15.

Perhaps It Did Not Apply.  
Fairmont, W. Va., Aug. 14.—The operators of the Fairmont region made a mistake by not serving Judge Jackson's injunction on the labor leaders who addressed 600 strikers at Bogg's Grove, near Monongah yesterday. The meeting was an enthusiastic one. Last night the same speakers addressed a large meeting at this place. Yesterday morning 100 of the Monongah men were at work, but there were 507 union men at that place last night. Another effort against the Watson mines will be inaugurated, but it is doubtful if it will succeed.

And Now He Wants His Money Back.  
Pontiac, Mich., Aug. 14.—James Casey and wife, of Birmingham, were arraigned before Judge Stafford on the charge of embezzling from John Arthur, of Farmington, and released on \$5,000 bail. Years ago Arthur proposed to Mrs. Casey, a full cousin, but was rejected. Arthur never married. Influenced by Mrs. Casey, Arthur turned over to her custody at different times \$12,000 and has drawn back \$3,000. When he asked for more, he says, Mrs. Casey refused him, claiming that he had made her an absolute gift of the money.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. ### LOCAL BREVITIES.

DOG Catcher Calderwood has caused the death of 15 canines which were roaming the streets untagged.

THE Abady Cigar company today received an order for 1,000 G & M cigars from a Buchanan firm.

THE Dowagiac News says that the best paper that comes to that office is the BENTON HARBOR EVENING NEWS.

THE Michigan City penitentiary will be open to the excursionists who go from this city tomorrow with Frazell's band.

GUY Johnson had one of his fingers badly mutilated in a saw at Thayer & Co's. factory yesterday. Dr. Sowers attended him.

THE Baptist people will give an excursion to Chicago August 23, but if the weather is rough the excursion will go on August 24.

THE Berrien county battalion elected the following officers at their meeting in Three Oaks Thursday: President, John Lane; vice president, Dwight Warren; secretary L. J. Merchant.

JOHN Shagstetter, injured in the Big Four round house here, recently had his claim against the Phoenix Accident and Sick Benefit association paid.

FRANK and Lillie Vernley, the clever mediums, gave a materializing seance last night at the home of Mr. and Mrs. Charles Teetzel which was witnessed by a large party of friends.

GEORGE Eldred and Dick Banyan had a bicycle race around the Napier bridge course this afternoon. George Eldred won the race by a close margin. The track was heavy and the time was 32 minutes.

J. A. SIMON received a letter this morning from A. W. Freemont, manager of the Simon Comedy company, advising him to come to Chicago next Wednesday to begin rehearsals for the season's work.

THE W. C. T. U. ladies extend an earnest and cordial invitation to all women interested to meet in the parlor of the Congregational church Monday at 3 p. m. Mrs. Rounds will say something on "Suffrage."

Mrs. Walker, a guest at the St. Joseph hotel, gave a pleasant bicycle party to a number of Benton Harbor friends yesterday afternoon. Luncheon was served at the hotel after which an exhilarating dip in Lake Michigan was taken. The party was brought back on the ferry Richmond.

ENDERS & Young, the clothiers, with two stores in this city and one at Watervliet, have a new advertisement in THE NEWS today. They call attention to the fact that their large stock of shoes at the Globe store on West Main street were purchased before the tariff bill was passed and they give customers the advantage.

THERE will be no service at the First Methodist church tomorrow, Rev. W. P. French being at the Crystal Springs camp meeting. Sunday school will be held at noon as usual and it is desired that there be a full attendance. In the evening Mrs. Rounds, the state president of the Illinois W. C. T. U., will address a union meeting in the church.

WITH this issue the West Michigan nurseries announce their prices for their fine lot of home grown trees and plants. They are now busy budding their immense peach blocks of 500,000 seedlings. Many of our own fruit growers will take advantage of this opportunity and have grown some of the varieties that do well with them, for which the company will contract at less than regular price.

Rev. J. N. Wilson, pastor of the Christian church, will deliver a series of Sunday evening sermons on the subject of "The Kingdom of Christ," beginning tomorrow evening. The following are some of the topics: "The Kingdom of Christ, has it now an existence?" "When was the kingdom set up?" "The nature of the kingdom." "The king of the kingdom." "The law of admission." "The final triumph of the kingdom."

A LOCAL citizen writes of the recent prize fight in St. Joseph: Tom Silverthorn would be prize fighter has left the country. If he ever faced a good man in his life that man was either asleep or behind a bar. Silverthorn was the loafer who kept challenging Vandenburg in the St. Joe Press. The fact that Silverthorn never met Vandenburg accounts for the barrel house fighter getting away with a whole skin.

THE city fire committee last night traded off "Tom," one of the city horses for a bay mare owned by John Danoff. It is understood that \$50 was given to Mr. Danoff in the trade. The new fire horse is the one that was injured while in the service of the city last winter and for the injuries of which Mr. Danoff wanted \$50 damage. One of the aldermen, Colonel Ward, contended that the horse was not worth \$50 and damages in the sum of \$6 was awarded Mr. Danoff. Good judges of horses say that the fire committee made a good trade. At any rate the fire department has a better team than it has had for a long time.

### Yellowstone Lake.

"There is an individuality about lakes. Perhaps the most striking thing about Yellowstone lake is its high altitude. It is up among the mountains and clouds in Yellowstone park nearly a mile and a half—7,741 feet—above where the sportive summer girl sits on the beach at the Atlantic ocean while the lazy wavelets ripple about her dainty toes. But as high as it is the mountains rise higher still by thousands of feet. In a solemn, owl-like fashion they blink down at the lake, and the lake blinks back at them. These mountains are well defined peaks, and cones, and turrets, and nearly all are named. Some of them are in this way redolent of the old explorers, the men who first braved the perils and difficulties of an unknown, untrodden wilderness. Such are Colter peak and Mount Doane."

The above is taken from "Wonderland '07," a beautiful new Tourist book published by the Northern Pacific railway. It will be mailed to any address upon receipt of six cents in stamps by CHAS. S. FEE, Gen'l Pass. agent, St. Paul, Minn.

## CASTELLO'S FUNERAL.

All Madrid Turns Out to Do Honor to the Murdered Spanish Statesman.

### CHRISTIAN AOT OF THE SENORA

In the Name of Her Husband and for Herself She Forgives His Foul Assassination—Thousands of Floral Tributes—What Bismarck Thought of the Dead Statesman—Blue Blooded Duel Near Paris Today—India-Tribal Troubles.

Madrid, Aug. 14.—The funeral of Senor Canovas del Castillo yesterday was a most touching and solemn ceremony. All the troops of the garrison lined the route along which the cortege moved; the flags were lowered and the public buildings, embassies, consulates and club houses were heavily draped with

GENERAL DE CAMPOS.

More than a thousand wreaths were deposited in the death chamber. A salvo of artillery announced the starting of the funeral procession, which moved slowly through an enormous crowd in which all heads were bare and many eyes were weeping. A peculiarly poignant scene ensued as the Duke of Sotomayor, Marshal de Campos, Marquis Pazo de la Merzed and the other pall-bearers lifted the coffin. Senora Canovas in a clear, firm tone said: "I desire that all should know I forgive the assassin. It is the greatest sacrifice I can make; but I make it for the sake of what I know of my husband's great heart."

Road strewn with flowers. Through the entire distance between the death chamber and the church the road was strewn with flowers and laurels. Senor Sagasta headed the cortege, which was formed of militia, deputies, senators, generals, admirals and delegations representing all the principal bodies. The wreath of the queen regent rested upon the coffin and other floral tributes were carried in special carriages. All the shops in the city were closed, and a very large proportion of the populace that thronged the streets appeared in mourning garb. The entire garrison marched past the coffin and the service lasted from 4 until 7:30 p. m. The remains of Senor Canovas were interred in the family vault in the St. Isidore cemetery, amid salvos of artillery and the tolling of all the bells of the city.

Honored with a Royal Escort. The military honors were those due a commander of a fortress dying in his command. The procession occupied two and one-half hours in passing a given point. Among the most notable features were deputations of the provincial councils, with mace bearers in curious mediaeval costumes, and a royal escort of palace halberdiers, which, according to strict ceremony, is only wont to be present at royal funerals, and was therefore a unique honor. Eight horses drew the hearse. The chief mourners were the Duke of Sotomayor, mayor dome of the royal household; General Azcarra, temporary president of the council; with the other members of the cabinet; Senor Sagasta, the Liberal leader; the Archbishop of Madrid, and the deceased statesman's nephews. All in the procession who were not entitled to wear uniform wore deep mourning.

Bismarck's Tribute to Canovas. Prince Bismarck, in his telegram of condolence to Senora Canovas, says: "I have never bowed my head before any one, but I bow it every time I hear the name of Canovas."

BLOOD IS TO FLOW TODAY.

Prince Henri of Orleans and the Count of Turin to Fight a Duel.

Paris, Aug. 14.—It is said that the duel between Prince Henri of Orleans and the Count of Turin will take place today in the vicinity of Paris, probably at Chantilly or Fontainebleau. The conditions are severe. The Count of Turin, it appears, left Italy without the authority of his superiors or the permission of the minister of war. The duel is the result of the charges made by Prince Henri against the Italian army and its officers in the campaign in Abyssinia. As soon as the officers got home after their captivity in Abyssinia they drew lots for a challenger of the prince. He refused to fight the one upon whom the lot fell because he was not his equal in rank.

Finally a challenge was accepted from General Albertone, of the Italian army, and just as arrangements were ready for the duel the Count of Turin arrived in Paris and insisted that he should be the Italian representative. Prince Henri of Orleans found the challenge of the Count of Turin on his arrival at his father's house in the Rue Jean Goujon and immediately telegraphed his acceptance. General Count di Quinto and Marquis Carlo Ginori will act as seconds for the Count of Turin.

London, Aug. 14.—The Rome correspondent of the Daily Mail says: "On its becoming known that the Count of Turin had left Italy to meet Prince Henri of Orleans, there was a lively interchange of telegrams between King Humbert, the Marquis di Rudini, the Italian premier, and the Italian embassy in Paris. It is feared that international complications may arise."

Rome, Aug. 14.—It is said that King Humbert has sent a dispatch to the Count of Turin and another to Prince

Albertone. The Daily Telegraph says: "I understand that the Count of Turin sent a challenge to Prince Henri before General Albertone did. It is reported that King Humbert approves the duel between the two princes on the ground that it will bring the quarrel to a definite close."

### INDIA SITUATION THREATENS.

Reported Complicity of the Afghan Ruler with the Recent Rising.

London, Aug. 14.—The news of suspected Afghan intrigues in India is very seriously regarded here. The British newspapers published in India had already discussed the possibility of the Ameer's complicity in the risings of tribesmen recently. It was reported some time ago that he had sent thousands of copies of his book on the "Jehad," or religious war, to the native Indian regiments, while anonymous letters appeared in the Indian native press glorifying the Turkish victories as "Islam's rising star," and declaring that the Ameer was ready to come, like the glorious Mahmud Shabuktigin of yore, to rid India of the Shaludak of the Christian yoke; bidding all the faithful to be prepared, and asserting that the riots at Chitpur were really a preliminary trial of Mohammedan strength, carefully organized by the highly educated real leaders of the community.

While the authority of the Afghan Ameer over the frontier tribes is very weak, it must be remembered that the Afghan general, Gholam Haidar, commanding at Ashmar, who was in constant communication with the mullah who led the attack on Fort Shabdkar last Saturday, is the Ameer's chief and most trusted commander, and taking into consideration the symptoms of unrest near Peshawar since the attack on Camp Malakand the Indian government will be well advised if it makes preparations to meet all eventualities. When the two reserve brigades have been concentrated at Rawalpindi the government forces in the Junjab will be strong enough to make operations possible in any direction throughout the whole extent of the northwest. General Blood has two full brigades in Swat. General Elles has a similar force in the vicinity of Peshawar. Another reserve brigade is between Mardan and Rawalpindi; and this is exclusive of the Tochi field forces.

### RIOTOUS MODERN WOODMEN.

Members of the Popular Society Take the Popular Plan of Getting There.

Fulton, Ill., Aug. 14.—Rock Island Woodmen and others, with a train of three coaches, baggage car and two box cars, arrived here yesterday and tried their old trick of stealing the books of the office of Head Clerk Hawes, of the Modern Woodmen of America. Fulton was ready; a fire alarm was sounded, and lines of hose laid when they arrived. The first break of the Rock Islanders was to cut the hose. A fight followed, guns, revolvers and stones being used. A partial list of the injured is: Will Bennett, city marshal, head cut, believed to be fatal; W. H. Flanagan, head badly cut; James Carrier, head cut; Ed Bare, head and arms injured—all of Walton; Chris Miller, of Lyons, Ill., head cut; P. J. Casey, of Moline, badly injured on head, and many others, including several Rock Islanders. The track is torn up each side of the trains, and Deputy Sheriff Farley has arrested Head Attorney Johnson, of the Modern Woodmen of America, and a number of others. The end is not yet in sight.

An injunction against the office of Head Clerk Hawes has been issued by Master in Chancery McPherson, of Sterling, and served on Attorney Johnson, who is under arrest here on charge of riot. Anthony Bastian and G. W. Clendenen, of Fulton, directors of the M. W. A. in 1890, when the board was illegally reduced from thirteen to five, have taken possession of Head Clerk Hawes' office as directors of the order.

Scores on the Ball Field.

Chicago, Aug. 14.—League base ball scores yesterday were: At Cincinnati—Chicago 2, Cincinnati 0; at Cleveland—St. Louis 5, Cleveland 6; at Washington—Brooklyn 3, Washington 7; at New York—Boston 6, New York 14; at Philadelphia—Baltimore 8, Philadelphia 1.

Western League: At Minneapolis—Columbus 10, Minneapolis 12; at Milwaukee—Grand Rapids 8, Milwaukee 16; at St. Paul—Indianapolis 8, St. Paul 11; at Kansas City—Detroit 5, Kansas City 11.

Western Association: At St. Joseph—Dubuque 4, St. Joseph 5; at Des Moines—Peoria 3, Des Moines 4; at Quincy—Rockford 3, Quincy 9; at Burlington—Cedar Rapids 11, Burlington 5.

A 3-months-old child of Mr. and Mrs. William Zastrow, of Milwaukee, was smothered to death in bed. The baby had fallen asleep with its face turned to the pillow and suffocated.

Miss Lizzie Maudrie, of Marinette, Wis., fainted in a boat on Green bay at the sight of a fish hook in her brother's thumb. She fell overboard, and but for timely assistance would have drowned.

Bats took possession of the house of Alonzo Ferrill near Bushby, Ia., and after a hard fight Ferrill and his sons killed sixty-three of them. The men's faces were badly scratched and they were nearly blinded.

## FARMING IN THE SOUTH.

**NO DROUGHTS, GENIAL CLIMATE AND AVAILABLE SECTIONS ESPECIALLY ADAPTED TO SETTLEMENT BY NORTHERN FARMERS.**

Almost every variety of grains and grasses grown in the North can be successfully grown in the South, but the crops that give best results for the money invested and labor expended are fruits and vegetables. Cotton is no longer King in the South. This wonderful change may possibly have been brought about by the large number of Northern farmers that have located at various points on the Illinois Central and the Yazoo & Mississippi Valley railroads in the States of Kentucky, Tennessee, Mississippi and Louisiana, and carried with them the

Monday, July 23, Captain Ed Napier, employed as master of Studebaker's pleasure boats at Warsaw, Ind., drove a rusty nail into his left arm. Local physicians cauterized the wound and no serious results were anticipated. A week later blood poisoning developed and the captain's condition became so alarming that his employer retained the services of an eminent Cincinnati physician. No relief was afforded the patient and he was advised to return home, which he did, arriving at his country residence two and one-half miles east of this city on the Watervliet road last Monday. The captain had suffered from tetanus, the spasms being persistent and grave, before coming home, and the day of his arrival here he experienced three violent convulsions. Dr. Bastar was called immediately and began a system of treatment. Tuesday the patient had several more convulsions and on Wednesday, accompanied by Dr. Bostick, Dr. Bastar made three incisions in the afflicted arm, having first placed the captain under the influence of chloroform. Upon recovering from the effects of the drug the patient had another spasm which proved the last and at present every symptom indicates the captain to be convalescent.

The Warsaw physicians were disposed to amputate the captain's arm, claiming that it was the only possible way to save his life. The patient objected, insisting that he would rather die than lose his arm. When the local physicians administered chloroform Wednesday the captain suspected that they intended to amputate his arm and he had his mother remain in the room to prevent it if the physicians attempted the act.

A St. Joseph barber was arrested for shaving a man on Sunday. Yet prize fighters can punch away at each other and go unmolested. Queer laws they have in the county capital.

#### Trouble Caused by an "L."

Editor Clugston of the Spiketown Blizard looked out of the front window of his office, hurriedly grabbed his hat and darted out through the back door, says the Chicago Journal.

The last issue of The Blizard had contained a personal item to this effect: "Our young friend, George Corbinson of Thatchersville, was in town again last Sunday. Ramor has it that he will soon lead to the altar a beautiful belle of Spiketown. George is one of the sold young men of our neighboring city."

Editor Clugston had written it "solid young men," but he knew it would be of no use to try to explain the mistake to the large, athletic young woman who was approaching the office.

And so when Miss Euphorbia Licklader, the acknowledged belle of Spiketown, walked in at the front door a few moments later and inquired in a deep, tragic voice for the editor, Mr. Clugston was emerging from a back alley 2 1/2 blocks away and making for the open country.

#### Revered the Rogue.

Von Moltke was an early riser and loved early risers. Once, while roaming around his Silesian estate at daybreak, he found a peasant woman bearing on her back a sack of potatoes which she had just dug, making a load heavy enough for a mule. "Here's a thaler for you," said the great field marshal. "You see, the early bird catches the worm." Afterward he found out that she was a night thief who had ravaged his fields persistently, but whom his steward had never got up early enough to catch.

#### Boils.

A person suffering with boils should eat beefy pastry, gravies and every kind of meat excepting lean mutton. The boils may be brought to a head by using a warm poultice of camomile flowers or boiled white lily root, by fermentation with hot water, or by stimulating plasters.—Good Housekeeping.

## Underfed Ones Can Not Stand the Heat.

### Many Sad Mothers Learn by Bitter Experience.

### Wrong Food at Bottom of Cholera Infantum.

### Diarrhoea Should Never be Allowed to Run On.

### Put the Child at Once on Diet of Lactated Food.

With cholera infantum raging as it is East and West this summer, it is appalling to any one who understands the subject, to see the carelessness of parents and nurses in the matter of infant feeding.

It is not enough to merely select a pure nourishing food. It must be acceptable to the delicate, weakened stomach of the little one—high temperature makes it difficult for young children to digest only the most easily assimilable food without irritating their intestines into diarrhoea—food must be taken in sufficient quantities and with relish to keep the child strong, well and growing.

Lactated food is made with the ex-

press intention of forming a reliable infant food and a perfect substitute for healthy mother's milk. An infant likes it. Fretful, peevish babies grow strong, ruddy and healthy on it. It has the unusual virtue of inducing delicate babies to take an abundance of nourishment when other foods disagree with them, and when retarded growth, feebleness and intestinal irritation threaten the poorly-fed child.

Mothers and nurses who have used lactated food all agree that it best supplies the materials for baby's rapid growth and development. It is prepared with a regard to purity, cleanliness and freedom from any possible source of contagion that merits all the praise that has been so lavishly bestowed upon it by parents and physicians.

Lactated food has tided thousands of babies through the hot, sickly days. It should be in the hands of every parent.

The ill effects of the intense August heat are far reaching. Many little ones droop and pine, without appetite and strength. Their usual diet fails to nourish, or more often is wholly rejected. In this weakened condition the mistake of overfeeding, that anxious parents too often fall into, instead of nourishing the little ones, only brings on diarrhoea.

And diarrhoea, with the temperature high up, results in cholera infantum.

The most carefully, intelligently guarded children are those fed on lactated food. Babies, when weaning, do not throw it up. Puny ones show a decided and immediate gain. Their steady, healthy growth is due to this rich nutritive that is relished even in the hottest weather.

Lactated food brings sound sleep. It checks all wasting disorders during hot weather. Every year lactated food saves thousands of lives.

A baby's duty is to keep strong and well. The parents' duty is to give the infant the best food in the world—that is lactated food.

## THE EARTH IS TILTING

And In 1,000 Years Chicago, Detroit and Benton Harbor Will Be Under Water.

## VERY STARTLING PREDICTION.

The Current of the Great Lakes Will Be Changed and Niagara Will Dry Up.

DETROIT, August 14.—Two papers were read before the members of the scientist's convention here Thursday which may well carry terror to the inhabitants of the lake cities, especially Detroit and Chicago. The first was by Professor Gilbert and the second by Dr. J. W. Spencer of Washington. The latter asserted that in the course of time Detroit would be overtaken by a fate that was later in store for Chicago, and that both would be drowned out by the encroaching waters of the lakes, which have made alarming progress in the last fifty years.

Dr. Spencer said that in 1880 he discovered that the Erie basin emptied not by the Niagara river, but by a buried valley directly into the head of Lake Ontario, and that the Niagara river and falls are a really modern feature.

"In the course of time Niagara will cease to exist entirely, as all the waters in the great lakes will be turned over Chicago and drained into the Mississippi. The changes in the lake levels are all of one sort; they all show a rising of the land at the north and northeast, as compared to the land at the west and southwest. It appears that the whole lake region is being tilted toward the south-southwest. The rate is such that of two points a hundred miles apart the northern rises five inches in a century as compared with the southern.

"The discharge thus obtained will be a mere anticipation of nature for the tilting of the lake basin would have produced the same results in less than 1,000 years. It is estimated that in the future all the overflow from the upper lakes will go to the Illinois; the Detroit and Lake St. Clair rivers will carry the water from Lake Erie to Lake Huron instead of Huron to Erie, and the Niagara river and falls will run dry."

He predicted that unless the authorities of the Windy city and Detroit make preparations for this change a catastrophe a thousand times more awful than the Johnstown disaster would occur. He said that it was high time for the city fathers of Detroit and Chicago to begin raising the level of their streets by dozens and hundreds of feet. Time would see the present site of Chicago hundreds of feet under water and the tall spire of Detroit's city hall a playing ground for innumerable fresh-water fish.

## MILK INSPECTOR.

He is Sampling the Products of St. Joe Dairies.

J. B. Barron, a milk inspector sent out by the agricultural department of the state, is getting samples of the products of St. Joseph dairies and making an analysis of the same with a view to detecting its character as a fit article for food. The St. Joseph milkmen don't know that their goods are being inspected and if any of them have been giving their customers a spurious article they are liable to have some very unpleasant experiences. The inspector will probably quietly drop in to Benton Harbor when he completes his work at St. Joseph.

As soon as this line is completed the line to Eau Claire will be built and simultaneously will be started the poles and wires toward the towns in the southern part of the county.

The company has five men at work on the extensions and this number will be increased.

## WANT HIM RELEASED.

Lawyers Cady and Riford Interceding for Fred I. Snow.

Lawyers Cady and Riford have been importuning of the sheriff that Fred I. Snow be released from custody. They maintain that the officer has no right to detain him; that he was not being held on a warrant and his detention was illegal, and he would have an action for damages against the officer.

The lawyers were informed that Snow was detained upon the advice of Prosecutor Valentine who considered from advices received from the east that he was a criminal and appeared in the role of a fugitive from justice, and his arrest and incarceration was a part of the officer's duty and no possible annoyance from Snow could come out of it.

Detective Parker, of Providence, R. I., left that city Thursday for Benton Harbor and he will reach here some time today. He has advised Officer Crawford that the requisition papers have been procured and were forwarded here, so that any objection Snow may raise to accompanying the officer back to Providence will not avail him much. Snow spends his time in jail reading THE EVENING NEWS, which reaches him regularly, and magazines brought him by friends. Yesterday a kind pastor of one of the city churches carried some fruit to his cell, which the prisoner ate with considerable rapaciousness.

Letters received from Secretary Howe, of the Lowell, Mass. Y. M. C. A. brand Snow as a notorious swindler. It is alleged that he has accounts with Lowell, Mass. jewelers aggregating \$400 for rings, bracelets and watch chains purchased for young ladies there; that when he left Lowell to come to Benton Harbor he had \$40 of church funds realized from the sale of tickets for a trolley party. Snow's father is a common laborer, with no means except what he earns by day's labor. He was once well-to-do, but repeated payments of his son's defalcations ruined him.

The sympathy felt for Snow when he was arrested is disappearing with the news of his real character.

## BIG WEDDING.

It Will Occur in Buchanan Next Tuesday.

BUCHANAN, August 14.—The marriage of Glenn E. Smith and Miss Bertha B. Peck, two very popular young members of society in this village, will occur next Tuesday at 1 o'clock in the afternoon, the ceremony to be performed by Rev. Cleaver, of Three Rivers. The wedding will be attended by a large number of the friends of the young couple and promises to be a very happy event.

The groom to be is the owner of a large boot and shoe and gents' furnishing goods establishment in this village. He is the son of M. H. Smith, a former landlord of the Hotel Whitcomb, at present employed as state agent by the National Building & Loan association of Detroit. Miss Peck is the daughter of John F. Peck, a prominent citizen here.

CAMPING STRIKERS OF ILLINOIS ARE SERVED WITH AN INJUNCTION OF THE WESTERN STYLE.

NO APPLICATION TO THE COURT.

Sheriff Tells Bradley He Must Move on or He Will Be Forced to Do So—Stages at Several Illinois Points—Matters Mixed in Southern Indiana—Effect of the Restraining Order in the Pittsburgh District—Fight Barely Averted.

St. Louis, Mo., Aug. 14.—A special to the Republic from Coffeen, Ill., says: Bradley's army of striking miners still threatens the town. No attention was paid to the sheriff's proclamation ordering the strikers to leave the county, and the men are as defiant as ever. Sheriff Randle did not return from Jacksonville until late yesterday afternoon. He drove immediately to the strike headquarters to investigate for himself just how far his order had been obeyed. He was angered by Bradley's defiant attitude, but decided not to resort to force until today. This was done because it would have been impossible to marshal the deputies before sundown, and the sheriff did not want to take chances with the invaders in the dark. He was inclined also to believe that Bradley was bluffing, and that the camp would be broken during the night. If every striker is not off the ground and on the move by noon today he will go forward with his men and the work that peaceable methods have failed to accomplish will be done by force. Fifteen Coffeen miners who stopped work when Bradley came here were yesterday notified by Receiver Mills of their discharge, and were ordered to take out their tools, which they did.

Everything Is Peaceable at Decatur. Decatur, Ill., Aug. 14.—The situation at the different camps of miners from other cities was quiet last night. About 200 men were in camp on the west, 100 on the south and 150 on the southwest. Deputy sheriffs guarded the roads in the vicinity of the camps. There was disorder and no sign of trouble. The miners obeyed quietly and without protest all the instructions of the officers. The proposition of the miners to send a delegation to the Decatur miners to see if they would not listen to arguments in favor of striking, and in case Decatur men refused to listen to leave the county, was refused by the authorities, apparently because of the opposition of the management of the coal mine. Manager Armstrong said he did not want any one talking to the men. The marchers were then told that they could not come in any way or send delegations. All of the 400 men were at work yesterday and will work today. All of the camps grew all day and night gradually. B. B. Ray, governor's representative, estimates the number of outside miners in the camp and in the city at 600.

Bald Made on Some Other Mines. Marion, Ill., Aug. 14.—Yesterday a large force of miners came in from Johnson City, where they succeeded in shutting down work Thursday. They made an unsuccessful effort at the Crab Orchard and Ohio Valley company's mines, laboring with them until 5 p. m., and then came here for quarters over night. This morning they will visit the Ohio and Mississippi Coal and Mining company, where they expect to make an effort to close down the works. There they will be met by Sheriff Parks and a large force of deputies, and should they refuse to disperse the sheriff will enforce the law and see that those wanting work have protection. The indications for today are good for excitement, and probably serious difficulties. The authorities are using every means in their power to avoid trouble, but are ready for it if it comes.

Situation in Southern Indiana. Evansville, Ind., Aug. 14.—The miners at Woolley's, Gough's and Nestor's mines, on the Louisville and Evansville and St. Louis road, a few miles above this city, went back to work yesterday. They said they were loyal to the cause and were willing to remain idle till the big strike was ended, but when they learned that there was a partial resumption of the mines in this city following the departure of the state officers they decided to work themselves. The miners at Newberg went out yesterday when asked to do so by the state officials of the miners. The miners in Bedford district also decided to resume work Monday.

NEITHER CAMPING NOR MARCHING

Will Be Permitted in the Pittsburgh District—Injunction Served.

Pittsburg, Aug. 14.—Injunctions by the court have put a stop to marches by the striking miners against the New York and Cleveland Gas Coal company, for a time at least. But in the execution of the injunction the sheriff and his deputies narrowly escaped precipitating serious trouble. As it was the first blood of the strike was shed. Henry Stewart, one of the sheriff's deputies, struck Jacob Mott, a drummer of the McDonald band, with the edge of a brass horn and cut a severe gash above his eye. The sight of the blood wrought up the 1,000 idle miners to such a pitch that a desperate conflict was imminent. The deputies also were excited and noisy. The strikers were jeering and yelling, and urging a further rush down the road. In that crowd there were enough angry strikers to annihilate four times the force of officers on the ground. Captain Bellingham (the strike leader), Sheriff Lowry, Chief Deputy James Richards and Superintendent De Armit were the only cool men in the assemblage.

To them belongs the credit of avoiding a riot. When Bellingham saw there was danger of his men getting beyond his control he commanded a halt and addressed himself to the task of restraining the more belligerent. So well were his efforts directed that he soon had restored comparative order. Sheriff Lowry had a difficult task to perform, but he handled it well, and by his coolness and good nature did much to neutralize the bitterness and strife invited by the behavior of his subordinates. The situation was

attorney and he advised them to quit marching until the court had heard the argument next Monday on the bill in equity brought by the New York and Cleveland Gas Coal company, as it might injure the case if they were brought up for contempt before the court. President Dolan then issued orders that no marches should be made on any of the mines of the New York and Cleveland Gas Coal company until further orders, although marches may be made against other places. In place of the marching mass meetings will be held and speeches made as a means of keeping miners of the company from going to work.

When the strikers departed Sheriff Lowry and his force also left the field. The sheriff, when asked concerning his future movements, said: "My actions shall be governed largely by the developments at the camp of the strikers. I am not prepared to say how I shall meet any particular emergency. It is certain, however, that if the strikers continue to stay at the camp they will be violating the terms of the injunction and attachments may be issued."

As the result of the serving of the injunctions on the marching miners and subsequent prevention of the march, excitement bordering on consternation existed among the heads of the various labor organizations here yesterday. Representatives of the several organizations called at miners' headquarters during the day. All were more or less excited and wanted to devise some plan by which the local labor organizations can enter a protest against the issuance of the blanket injunctions.

HOW WEST VIRGINIA LOOKS.

As Viewed by a Leader of the Marching Strikers in That State.

Cincinnati, Aug. 14.—The following special to The Commercial-Tribune from Montgomery, W. Va., was written by Fred Dlicher, the leader of the marching strikers in that region. "The progress of the present strike in this field is wonderful. Every mine in this and the Kanawha valley is closed with the exception of Acme and one mine in Lens Creek. Our army marched last night to Mount Carbon and closed the mine of the Great Kanawha colliery, one of the largest mines on the river. It was intimidated by the operators that this mine would absolutely refuse to suspend operations and would fight our army to a finish, but we are proud to say that all are with us. This we consider one of our greatest victories. The Winifred mine voted last night to join the great army of strikers and this is another great victory for organized labor. "This valley, which has been loading 550 cars per day, has been reduced to twenty-five cars. Our army has been increased by new forces, and we expect to go to New River with 5,000 miners in line. Our army is jolly and in the best of condition, composed, not of toughs and thugs as has been reported, but of honest working men who are fighting for their rights. A meeting held this afternoon at this place was addressed by Joseph H. Vitchevstein, of the Allegheny Evening Record; Geo. Robinson, state president; W. H. Thompson and myself."

STRIKE OF SCHOOLHOUSE HANDS.

Union Labor at Chicago Demands the Proscription of Non-Union.

Chicago, Aug. 14.—In an attempt to force the city school board to proscribe non-union labor the Building and Trades Council of this city has ordered a strike on all the school buildings upon which men are making repairs, etc. The number of men involved is 2,500. If the strike continues for any length of time and non-union men are not put to work many of the schools will not be ready for occupancy when the winter term begins in September. Instead of meeting this question one way or another, the school board has practically dodged it.

Architect Patton, of the board, is of the opinion that the question is one of grave importance. He said: "The question of inserting the clause demanded by the unions is a serious one. Can the board rightly say that none but union men shall work on the buildings? Can the board deprive of the right to work hundreds of honest, hard-working taxpayers who are just as good workmen as the union men, but do not belong to any organization?" Patton has notified the contractors that they must continue at work, whether they employ union or non-union labor.

## BIG CAMP MEETING.

A Temporary Village of 600 People on the Banks of the Dowagiac Creek.

### A PRETTY RELIGIOUS RETREAT.

The Crystal Springs Camp Meeting Will Close Tomorrow—Local Preachers Licensed.

Seven miles from the pretty Big Four station of Berrien Centre or two and a half miles from nowhere (otherwise called Pokagon on the Michigan Central,) along the banks of the Dowagiac creek is a tract of natural forest and cleared land on which nothing is raised except the standard of the cross. The tract comprises between 37 and 42 acres of land and is known to the world as the Crystal Springs camp grounds.

Here the faithful Methodists of the Niles district meet in annual worship. There are on the grounds 109 cottages and this year besides there are twenty tents and the resident population is 600. Besides this at every service hundreds of people from the surrounding country are in attendance and the large auditorium which holds upwards of 1,000 people is quite frequently filled while on Sunday the grounds are crowded. No ground is sold for cottages but every cottage pays \$1 tax each year toward the natural expenses of the property. The people who pitch a tent for the two weeks of camp meeting are charged the same price as the cottage owner.

The grounds are beautifully located and the springs add a charm which compensates for the long dusty ride to reach the place. The larger of the springs furnishes water for the grounds and the water is pumped to hydrants located in all directions, by means of a steam engine and the direct pressure system. A visit to the spring itself, located in a valley several feet below the grounds, explains why the place is called "crystal" springs. The spring is under a cover of a circular pattern and the platform under the cover is large enough to accommodate several people. In the centre of the platform is a round opening about three feet in diameter and about this opening is a woven wire enclosure. At one point of the enclosure is a door which may be opened and the visitor is permitted to look down into the spring. The water is as clear as any crystal and through the many feet of water the bottom of the spring can be seen. The water is so clear and the bottom so clean that the sight makes the spectator thirsty. The spring flows nearly a barrel a minute and the water is as cold as ice.

The camp grounds were formerly used by the state as a fish hatchery but the water from the spring was so cold that only the hardier varieties of fish could be propagated. The large artificial ponds are now full of German carp and the clear water makes it a pleasant pastime to watch the movements of the fish.

The camp meeting is not a money making scheme. The receipts of the meeting last year were \$1,368.14 and the money was all used in defraying the expenses of the year. The grounds are valued at \$12,000 and the district owes an indebtedness of \$1,770. When prosperity comes it is hoped that this small debt will be liquidated.

At the meeting Thursday morning Bishop Bowman preached a grand sermon taking for his text, "But to do good and communicate forget not; for with such sacrifices God is well pleased." Yesterday afternoon Mrs. De Line, of Benton Harbor, the returned missionary from India gave an address and this morning Rev. W. P. French was on the program for a sermon. The presiding elder wanted Mr. French to preach the Sunday sermon but the Benton Harbor pastor dislikes to deliver sermons at campmeeting and he had sufficient influence with Elder Carlisle to get himself sidetracked for a week day sermon.

The last district conference of the year was held on the grounds under the trees yesterday afternoon. Every minister holding a charge in the district was present. Local preachers' licenses were granted the following: L. L. Jones, Herbert N. Willis, Charles I. Gray, Watervliet; Truman I. Parker, Lawrence. The licenses of the following local preachers were renewed: John H. Diehl, Watervliet; James C. De Vinne, Buchanan; Henry P. Maley, Niles; Robert H. Allsop, Dayton; Isaac Voorhees, Bridgeman; William Camfield, Stevensville; J. S. Barker, Benton Harbor; James W. Springstein, Cassopolis; and Charles S. Lang. The licenses of all the exhorters on the district were renewed. Lawton was selected as the place for holding the next district conference.

Rev. J. W. Carlisle of Niles is now closing his last year as presiding elder on this district and he is looking out for a good pastorate for himself. When a man secures a good charge or is presiding elder in the district, it is a great honor when the district conference is held at his home.

good." The presiding elder receives a salary of \$1,500 per year and of course he expects something as good. President McKinley is continually giving turned down office seekers "something equally as good" but the Methodists do in performance that which the president does in promise. The campmeeting will close for this year Sunday evening.

### THOUSANDS OF MACCABEES.

They Will Spend a Day Here in September.

Early in September H. H. Leonard, the successful excursion agent of the Graham & Morton line, will bring between 4,000 and 5,000 Maccabees to these cities for a day's outing. They will include the officers of the Great camp of Illinois and members from tents in all parts of the state. It will be the largest excursion ever brought to this city by boat. Two of the Graham & Morton steamers will be required to carry the immense crowd.

### TWO MARVELS.

They Will Appear in St. Joseph Tonight and Tomorrow.

The marvelous mediums, Frank and Lillie Vernley, will appear at the Academy of Music tonight and tomorrow night, in a series of exciting and mystifying demonstrations in spiritualism. They are the only mediums who successfully materialize on a brilliantly lighted stage. There will be some startling cabinet manifestations while the mediums are tied by a committee from the audience. Their spirit friends will hover about them, touching them, ringing bells, playing upon harps, guitars, etc.

### WILL GO TO COLOMA.

South Bend Man Talks About M. B. H. & C.

South Bend Tribune: John M. Caulfield, chief promoter of the new railway enterprise between Columbus, O., and Benton Harbor, known as the Milwaukee, Benton Harbor & Columbus railway, was at his home in this city Saturday for the first time in several weeks.

The line will be extended from Benton Harbor north to Coloma, South Haven and Saugatuck. At Coloma a spur will be run out to the popular resort, Paw Paw lake, and at Covert it will connect with the narrow gauge line running from South Haven to Lawton. This line Mr. Caulfield's company has purchased and will at once take steps to change the gauge to the broad kind and to extend the road east from Paw Paw to Kalamazoo, and thence on to Toledo. The road goes through one of the richest agricultural and fruit regions of southern Michigan, but owing to its narrowness has never been successful in competing with other lines.

### IS UNSAFE.

Wagon Goes Through the Highway Bridge.

Last evening a wagon loaded with two logs which were being hauled to a St. Joseph mill went through the highway bridge over the St. Joseph river. The front wheel on the right side of the wagon cut through the thin covering of worn pine planking and dropped to the hub.

The accident prevented cars from crossing the bridge for an hour and passengers had to be transferred. The unsafe condition of the structure is now fully illustrated and whoever is responsible for keeping the bridge in repair should take warning from last night's incident.

If only one thickness of planking can be placed between the car tracks the authorities should require that it be of oak. The pine planks wear down to a dangerous condition in a month with the heavy traffic carried on over the structure, and it is to be marveled at that horses have not suffered the loss of legs by broken planks before this.

### 800 CYCLISTS.

They Will Land in Benton Harbor Tomorrow.

H. H. Leonard, the manager of the great Chicago cyclists' excursion to the twin cities tomorrow, arrived here this morning and is arranging accommodations for the 800 wheelmen who have chartered the Graham & Morton steamer, City of Louisville, and will leave Chicago at 11:30 o'clock tonight.

The cyclists will be entertained at the Lake View and Hotel Benton. After breakfast they will board the river steamer Tourist and May Graham and spend several hours amid the shades of the St. Joseph river. Returning they will assemble at the bathing pavilion and buffet the billows of Lake Michigan.

After dinner the St. Joseph contingent will ride to this city and joining the cyclists entertained at the Hotel Benton will ride in a huge company to the pavilion at the Benton Harbor terminus of the Electric railway where a rare program of field sports will be given. The wheelmen will include some of the leading and wealthiest business men of Chicago and altogether will represent a distinguished company. Mayor Harrison, captain of the Lincoln Cycle club, is expected to be with the party.

The two cities should make an exertion to receive the cyclists with at least some small exhibition of hospitality, and it would no doubt be greatly appreciated if Frazell's military band was employed to escort the wheelmen from the Hotel Benton to the pavilion. Included in the party will be members of the Chicago, First Regiment, Lincoln, South Side, Illinois, Woodlawn and Thistle cycling clubs, the Englewood wheelmen, the Bankers Athletic club and Lakeview Clarendon wheelmen.

### WHAT TOMMY SAID.

Uncle John—Well, what do you mean to be when you get to be a man?

Little Tommy (promptly)—A doctor, like pa.

Uncle John (quizzically)—Indeed; and which do you intend to be, an allopath or a homoeopath?

Little Tommy—I don't know what them awful big words mean, Uncle John; but that don't make any difference, 'cause I ain't going to be either of them. I'm just going to be a family doctor and give all my patients Hood's Sarsaparilla, 'cause my pa says that if he is a doctor, he's 'bliged to own up that Hood's Sarsaparilla is the best family medicine he ever saw in his life.

The farmers of southern Michigan and northern and eastern Indiana held a monster reunion at Pleasant Lake, near the Michigan line, Thursday. The address of the day was delivered by ex-Gov. Cyrus G. Luce, who discussed the various phases of a farmer's life. His address entirely eschewed politics and was a typical agricultural speech, addressed to a typical assemblage of Michigan and Indiana farmers.

### MISERIES' BORDERLAND.

There's an intangible, but nevertheless definite line that exists in life. Step beyond its border and the gloom of pain, the poison of despair stares you in the face. Health is the sunny land of life, disease the gloom. It is asserted that the mysterious border once crossed there can be no returning. In many, many cases it is true, provided an unskillful practitioner has the individual in charge. Not so with Drs. B. S. & Co., the eminent specialists of Muskegon. Under their manipulation and scientific discoveries, and their application, all functional and organic troubles and their consequent evils are banished perfectly and permanently. The victim, the sufferer, regains his health and strength and becomes again a sound being. Their marvelous skill and ability is not the result of chance or "luck," but the legitimate growth of preserving application and unrestrained research.

Their cures are vouched for and substantiated by living proofs, by the healthy beings who have been restored through Drs. B. S. & Co.'s skill. These renowned physicians will visit St. Joseph, Lake View hotel, Tuesday, August 24; Benton Harbor, Hotel Benton, Wednesday, August 25; Coloma, Teeter hotel, Thursday, August 26; in the private parlor of the hotels.

### Yellowstone Lake.

"There is an individuality about lakes. Perhaps the most striking thing about Yellowstone lake is its high altitude. It is up among the mountains and clouds in Yellowstone park nearly a mile and a half—7,741 feet—above where the sportive summer girl sits on the beach at the Atlantic ocean while the lazy wavelets ripple about her dainty toes. But as high as it is the mountains rise higher still by thousands of feet. In a solemn, owl-like fashion they blink down at the lake, and the lake blinks back at them. These mountains are well defined peaks, and cones, and turrets, and nearly all are named. Some of them are in this way redolent of the old explorers, the men who first braved the perils and difficulties of an unknown, untrodden wilderness. Such are Colter peak and Mount Doane."

The above is taken from "Wonderland '97," a beautiful new Tourist book published by the Northern Pacific railway. It will be mailed to any address upon receipt of six cents in stamps by CHAS. S. FEE, Gen'l Pass. agent, St. Paul, Minn.

Mrs. L. N. Fitch has opened hair-dressing parlors in the Sweet block, over I. O. Ferring's photograph gallery and is prepared to do all kinds of work in that line. Switch-making a specialty.

TWIN CITY TELEPHONE 172.

SATURDAY, AUGUST 14, 1897.

St. Joseph is the Carson City of Berrien county.

Ex-Governor Altgeld thinks the present price of wheat is a losing thing for the farmers. That is, under the bi-metallic standard he says the price of wheat would now be \$1.50 per bushel. The ex-governor always was a good theorist.

By resorting to a bloody riot among themselves to keep the records of the order at Fulton, Ill., the members of the Modern Woodmen have not shown the fraternal spirit they teach. It is to the credit of Michigan Woodmen, however, that they are not mixed up in the dispute.

THE Palladium today prints an editorial scoring the St. Joseph police who blindfold their eyes in the presence of a prize fight but watch for the law abiding citizen who technically breaks some law that he observes in spirit and intent. THE EVENING NEWS endorses the condemnation. But why stop there? The gravest crime committed in St. Joseph this week was that committed by the brute who attacked and disfigured John Higman Jr., perhaps for life. And still the Palladium which pretends to be so just has never condemned the villainous attack of the man Shuler. The reason for this is that the Palladium and Press drink out of the same trough. The Palladium gives the Press Benton Harbor news in exchange for St. Joseph news. The Palladium probably would like to denounce the outrage but in this as in many other matters it is muzzled.

**Outlook Encouraging for Uniformity.**  
Pittsburg, Aug. 14.—The "true uniformity" committee reports that a number of signatures have been secured to the agreement and that the outlook is very encouraging. The names of the signers were not given out, but it was intimated that the number was quite large and that it included some of the larger firms. From this time forward a regular and systematic canvass for signatures to the agreement will be made. J. B. Johnston, a local newspaper man, has been appointed secretary of the committee on revision, with instructions to visit every operator in the district, elucidate the terms of the article, and, if possible, secure his signature. Inasmuch as many of the operators are away from the city, it is expected that the canvass for signatures will last many weeks, possibly until Sept. 15.

**Perhaps It Did Not Apply.**  
Fairmont, W. Va., Aug. 14.—The operators of the Fairmont region made a mistake by not serving Judge Jackson's injunction on the labor leaders who addressed 600 strikers at Boggs Grove, near Monongah yesterday. The meeting was an enthusiastic one. Last night the same speakers addressed a large meeting at this place. Yesterday morning 100 of the Monongah men were at work, but there were 507 union men at that place last night. Another effort against the Watson mines will be inaugurated, but it is doubtful if it will succeed.

**And Now He Wants His Money Back.**  
Pontiac, Mich., Aug. 14.—James Casey and wife, of Birmingham, were arraigned before Judge Stafford on the charge of embezzling from John Arthur, of Farmington, and released on \$5,000 bail. Years ago Arthur proposed to Mrs. Casey, a full cousin, but was rejected. Arthur never married. Influenced by Mrs. Casey, Arthur turned over to her custody at different times \$13,000 and has drawn back \$3,000. When he asked for more, he says, Mrs. Casey refused him, claiming that he had made her an absolute gift of the money.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

"The final triumph of the kingdom."

A LOCAL citizen writes of the recent prize fight in St. Joseph: Tom Silverthorn the would be prize fighter has left the country. If he ever faced a good man in his life that man was either asleep or behind a bar. Silverthorn was the loafer who kept challenging Vandenburg in the St. Joe Press. The fact that Silverthorn never met Vandenburg accounts for the barrel house fighter getting away with a whole skin.

THE city fire committee last night traded off "Tom," one of the city horses for a bay mare owned by John Danoff. It is understood that \$50 was given to Mr. Danoff in the trade. The new fire horse is the one that was injured while in the service of the city last winter and for the injuries of which Mr. Danoff wanted \$50 damage. One of the aldermen, Colonel Ward, contended that the horse was not worth \$50 and damages in the sum of \$6 was awarded Mr. Danoff. Good judges of horses say that the fire committee made a good trade. At any rate the fire department has a better team than it has had for a long time.

Yellowstone Lake.

"There is an individuality about lakes. Perhaps the most striking thing about Yellowstone lake is its high altitude. It is up among the mountains and clouds in Yellowstone park nearly a mile and a half—7,741 feet—above where the sportive summer girl sits on the beach at the Atlantic ocean while the lazy wavelets ripple about her dainty toes. But as high as it is the mountains rise higher still by thousands of feet. In a solemn, owl-like fashion they blink down at the lake, and the lake blinks back at them. These mountains are well defined peaks, and cones, and turrets, and nearly all are named. Some of them are in this way redolent of the old explorers, the men who first braved the perils and difficulties of an unknown, untrodden wilderness. Such are Colter peak and Mount Doane."

The above is taken from "Wonderland '97," a beautiful new Tourist book published by the Northern Pacific railway. It will be mailed to any address upon receipt of six cents in stamps by CHAS. S. FEE, Gen'l Pass. agent, St. Paul, Minn.

## FAMOUS OLD MINER.

EDWARD SCHIEFFELIN ONE OF TOMBSTONE'S DISCOVERERS.

From Stories of a Most Typical Western Prospector—How the Schieffelin Brothers and Dick Gird Struck It Rich in Tombstone Gulch.

The Pacific coast newspapers have been full of stories about Edward Schieffelin, one of the discoverers of the Tombstone mines, who was found dead in a cabin in eastern Oregon. His remains, according to his wish, now rest upon the top of a granite peak two miles west of Tombstone, A. T. He desired, he said, "to be buried in the garb of a prospector, my old pick and canteen with me, and a monument such as prospectors build when locating a mining claim built over my grave and no other monument or slab erected."

It seems to be generally felt throughout the Pacific coast that this plain, ignorant, kind hearted old pioneer and prospector, who had traveled many thousands of miles in search of new mines, has thus unconsciously made his mark upon our romance and history. That lonely granite cairn in the desert, rising upon the extreme point of a treeless promontory, will long be pointed out as the grave of one of the most famous of American prospectors.

Ed Schieffelin's one great strike yielded him fully a third of \$1,000,000. At various times in his adventurous career he plodded painstakingly over the wildest portions of the Rocky mountains and Sierras, he visited Alaska, Mexico, South America and South Africa, but never again found such a mine. When he died, his fortune, at one time said to be over \$500,000, had greatly decreased by reason of bad investments and costly expeditions.

The story of the finding of Tombstone, that briefly famous Arizonian mining city, has been told in many different ways, until it is fast becoming one of the most attractive of Pacific coast myths. The simple facts are that late in the seventies the two Schieffelin brothers and Dick Gird were, prospecting, sometimes together, sometimes separately, in various districts of Arizona and New Mexico. It was a time of terrible Indian outbreaks, and the Apaches were on the warpath, killing lonely miners and prospectors, attacking the stage coaches and running off cattle. Ed Schieffelin finally wandered into the neighborhood of a disputed claim, the Bronco, where eight men had been shot in various attempts to decide its ownership, and was hired at \$2 a day to sit on a hilltop and look out for Indians. One day, while hunting up a stray horse, the hitherto unsuccessful prospector stumbled into what was afterward called Tombstone Gulch and found some copper stained rock on what became the Tough Nut mine. This he sent to Gird for an assay, and soon after sent ore from the Lucky Cuss. When development was begun, a thin vein in granite widened, and promised immense riches. The claims were sold for very large sums, and when the Apaches were driven out capitalists poured money into the district. But the mines did not justify expectations. Tombstone was very far from being a second Comstock. The unlucky Broncho never paid a dollar. The Schieffelin and Gird claims yielded for a time but soon ran out, and the camp sank into decay.

The first time I met Schieffelin, that most typical of western prospectors, was about six years ago. After hearing some of his picturesque prospector yarns I told him about the various treasure expeditions to Coos island and the legends which had caused these excitements. He seized upon the glittering tale of diamond hilted swords, bags of doubloons and bars of gold with the faith of a child and at once offered to fit out a schooner for the islands and to pay my expenses as well as give me a third of the treasure if I would go along to repeat the legend as often as desired. He had prospected for almost everything, he said, except pirate treasures, and he wanted those diamond hilted swords to "put in his parlor."

I did not know at that time the story about his parlor. Having bought a \$7,000 house in the town of Alameda, he kept several tons of quartz in one corner, on top of which his old prospecting tools, burro's saddle and camp outfit reposed when not in use. I never heard what his wife thought of this unique furniture, but there is no doubt that the diamond hilted swords would have rested peacefully on the quartz pile, and it was with sincere regrets that I acknowledged to him my entire lack of faith in the picturesque Spanish legend of Coos island.

Schieffelin's Alaska experiences have long deserved a chronicler. He fitted out an expedition years ago and prospected over vast areas of that region. His little steamer ascended the broad Yukon, and the party wintered in the interior. One man, since dead, Charles Farciot, remained behind when the steamer returned to prospect further. When he desired to return, he built one of the most remarkable little steam engines ever seen on the coast. It was made from a few pieces of pipe and some old cans picked up about the deserted Schieffelin camp, and his only tools were a file and a pocket knife, with a stone for a hammer. He put this rattle engine in the stern of a small rowboat left behind for his use and steamed 8,000 miles without an accident. The outfit was afterward on exhibition in San Francisco and excited the amazement and indeed the profound admiration of the best mechanicians, who agreed in saying that Farciot's mechanical genius was of a very high order.—New York Post.

## VICTORIA'S REGAL RIGHT.

Why the Niece of William IV Was Called to the Throne.

Several newspapers, in explaining to their readers how Queen Victoria came to succeed William IV, say it was because she was his niece. That is the truth, but only half the truth, for William IV had nephews and other nieces. George III's first, second, third and fourth sons were respectively the Prince of Wales, afterward George IV, who died childless in 1830; Frederick, duke of York, who died in 1837, also without children; William, duke of Clarence, who died William IV, June 20, 1837, without lawful issue, and Edward, duke of Kent and Strathearn and earl of Dublin, who died Jan. 28, 1820, aged 58, leaving as the sole issue of his marriage with Princess Victoria of Leiningen a baby daughter, now Queen Victoria. The queen succeeded William IV not because she was simply his niece, but because she was the only child of the brother next to him in the order of succession.

Had Queen Victoria had a brother she would in all probability not have been a personage of historical celebrity, save in the contingency of succeeding him. Her rights were those that devolved on her from her father. At the time she succeeded to the throne her uncles—the Dukes of Cumberland, of Sussex and Cambridge—were living, younger brothers of her father and junior to him in the line of succession in the order named. The Duke of Cumberland, who became king of Hanover on the death of William IV, was a man of such despotic temper and principles that all England cherished the Princess Victoria as standing between it and his succession to the throne. He had lawful issue, as had the Duke of Cambridge.

The Duke of Sussex, a most estimable man, married twice, but these unions being repugnant to the provisions of the royal marriage act, his children were barred from the line of succession. From the revolution of 1688 rose the Jacobite party, made up of those who supported the cause of James II, his sons and descendants. The picturesque modern Jacobites do not recognize Queen Victoria, despite the fact that her succession is due to her Stuart blood, for she is a direct descendant of Elizabeth, daughter of James I, to whose heirs the title to the throne devolved by the act of settlement on the death of Anne.—Boston Transcript.

### Deafness in School Children.

The fact that myopia is frequent among school children is well known. It is not so well known that impaired hearing is also frequently met with. The children thus affected are often accused of being lazy and inattentive, when in reality their ears are at fault. Helot shows that these cases are quite common, are easily recognized, are generally curable and when cured a large number of children are transformed, so to speak, both from a physical and a moral standpoint. According to Weil of Stuttgart, the proportion of school children with impaired hearing is 35 per cent; according to Moore of Bordeaux, 17 per cent. Helot agrees with Geste and other aurists that the proportion is 25 per cent, or one-fourth. All the children in a class should be carefully examined, and these semideaf pupils will always be found among the poor scholars. The cause of infirmity is to be sought for—nasopharyngeal catarrh following measles, scarlatina, whooping cough, adenoid vegetations, hypertrophied tonsils, etc.—and normal conditions are to be restored by appropriate treatment.—Popular Science News.

### Humbert's Generosity.

King Humbert's generosity in charitable works is said to be fabulous. A petition hardly ever remains without an answer. His majesty spontaneously gives presents to those persons to whom he does not wish to grant subsidies. These presents are generally of two kinds—a golden clock with the royal arms or a brooch set in diamonds. His jeweler supplies him each year with 500 clocks and 1,000 brooches. King Humbert never goes to the theater save on the occasion of an official solemnity. He says that he finds no pleasure in artificial life.

"I play a part every day," he says, "in the political and official comedy. What can the other comedians teach me?"—Rome Letter.

### Origin of a Name.

The origin of the name Fife is not known. One historian tries to show that it comes from the Celtic word veach, a Pict, and means that the district was inhabited by Picts, but that is obviously absurd, as Fife was not especially the home of any of the Pictish nations. The tradition that finds greatest favor is related by a monk, who states that the first known possessor of the district which has since grown into the kingdom of Fife was one Fifeus Duffus, a famous chieftain whose date is lost in the mists of antiquity.

### The Queen's Messengers.

The four queen's messengers always travel incognito. They wear their badges of office out of sight, suspended round their necks, and are always most reluctant to display them to emphasize their authority and the importance of their mission. The badge is a small, exquisitely modeled silver greyhound.—London Standard.

### White Dome Geyser Yellowstone Park.

"A mile and a half from the Fountain Hotel, and easily reached by bicycle, tourist wagon, or by walking, lies a hidden basin full of nature's caprices. At the entrance, as if on guard, stands the immaculate White Dome. As one approaches, he almost expects to be challenged and asked for a countersign. If such a challenge is given it is in a curious fashion, in the form of a geyser eruption, for the White Dome is a geyser. It is not unlike the Castle Geyser, or the White Pyramid of the Upper Geyser Basin. The geyser is a very white, rather dome-shaped mound, built up from the secretions of its waters, and is the most conspicuous feature of the locality. It is perhaps 25 feet high, with a circumference at the base of 75 or 100 feet. Its eruptions come at intervals of from twenty to forty-five minutes, being somewhat irregular, and the water is thrown to a height of from ten to twenty-five feet."

## CASTILLO'S FUNERAL.

All Madrid Turns Out to Do Honor  
to the Murdered Spanish  
Statesman.

CHRISTIAN ACT OF THE SENORA

In the Name of Her Husband and for Her-  
self She Forgives His Foul Assassin—  
Thousands of Floral Tributes—What  
Bismarck Thought of the Dead States-  
man—Blue Blooded Duel Near Paris  
Today—India Tribal Troubles.

Madrid, Aug. 14.—The funeral of Senor  
Canovas del Castillo yesterday was a  
most touching and solemn ceremony.  
All the troops of the garrison lined the  
route along which the cortege moved;  
the flags were lowered and the public  
buildings, embassies, consulates and  
club houses were heavily draped with

**GENERAL DE CAMPOS.**  
More than a thousand wreaths  
were deposited in the death chamber.  
A salvo of artillery announced the  
starting of the funeral procession, which  
moved slowly through an enormous  
crowd in which all heads were bare  
and many eyes were weeping. A pecu-  
liarly poignant scene ensued as the  
Duke of Sotomayor, Marshal de Campos;  
Marquis Pazo de la Merced and the  
other pall-bearers lifted the coffin.  
Senora Canovas in a clear, firm tone  
said: "I desire that all should know I  
forgive the assassin. It is the greatest  
sacrifice I can make; but I make it for  
the sake of what I know of my hus-  
band's great heart."

**Road Strown with Flowers.**  
Through the entire distance between  
the death chamber and the church the  
road was strewn with flowers and  
laurels. Senor Sagasta headed the  
cortege, which was formed of militia,  
deputies, senators, generals, admirals  
and delegations representing all the  
principal bodies. The wreath of the queen  
regent rested upon the coffin and other  
floral tributes were carried in special  
carriages. All the shops in the city  
were closed, and a very large proportion  
of the populace that thronged the  
streets appeared in mourning garb. The  
entire garrison marched past the coffin  
and the service lasted from 4 until 7:30  
p. m. The remains of Senor Canovas  
were interred in the family vault in the  
St. Isidore cemetery, amid salvos of  
artillery and the tolling of all the bells  
of the city.

**Honored with a Royal Escort.**  
The military honors were those due a  
commander of a fortress dying in his  
command. The procession occupied two  
and one-half hours in passing a given  
point. Among the most notable features  
were deputations of the provincial coun-  
cils, with mace bearers in curious  
mediaeval costumes, and a royal escort  
of palace halberdiers, which, according  
to strict ceremony, is only wont to be  
present at royal funerals, and was there-  
fore a unique honor. Eight horses  
drew the hearse. The chief mourners  
were the Duke of Sotomayor, mayor  
dome of the royal household; General  
Azcarraza, temporary president of the  
council; with the other members of the  
cabinet; Senor Sagasta, the Liberal  
leader; the Archbishop of Madrid, and  
the deceased statesman's nephews. All  
in the procession who were not entitled  
to wear uniform wore deep mourning.

**Bismarck's Tribute to Canovas.**  
Prince Bismarck, in his telegram of  
condolence to Senora Canovas, says: "I  
have never bowed my head before any  
one, but I bow it every time I hear  
the name of Canovas."

**BLOOD IS TO FLOW TODAY.**

Prince Henri of Orleans and the Count of  
Turin to Fight a Duel.

Paris, Aug. 14.—It is said that the duel  
between Prince Henri of Orleans and the  
Count of Turin will take place to-  
day in the vicinity of Paris, probably at  
Chantilly or Fontainebleau. The condi-  
tions are severe. The Count of Turin,  
it appears, left Italy without the au-  
thority of his superiors or the permis-  
sion of the minister of war. The duel is  
the result of the charges made by Prince  
Henri against the Italian army and its  
officers in the campaign in Abyssinia.  
As soon as the officers got home after  
their captivity in Abyssinia they drew  
lots for a challenger of the prince. He  
refused to fight the one upon whom the  
lot fell because he was not his equal in  
rank.

Finally a challenge was accepted from  
General Albertone, of the Italian army,  
and just as arrangements were ready  
for the duel the Count of Turin arrived  
in Paris and insisted that he should be  
the Italian representative. Prince Henri  
of Orleans thought the challenge of the  
Count of Turin on his arrival at his  
father's house in the Rue Jean Goujon  
and immediately telegraphed his ac-  
ceptance. General Count di Quinto and  
Marquis Carlo Ginori will act as sec-  
onds for the Count of Turin.

London, Aug. 14.—The Rome corre-  
spondent of the Daily Mail says: "On  
its becoming known that the Count of  
Turin had left Italy to meet Prince  
Henri of Orleans, there was a lively in-  
terchange of telegrams between King  
Humbert, the Marquis di Rudini, the  
Italian premier, and the Italian embassy  
in Paris. It is feared that international  
complications may arise."

Rome, Aug. 14.—It is said that King  
Humbert has sent a dispatch to the  
Count of Turin and another to Prince

Henri of Orleans, severely censuring the  
"boyish hot-headedness."

London, Aug. 14.—The Paris corre-  
spondent of the Daily Telegraph says:  
"I understand that the Count of Turin  
sent a challenge to Prince Henri before  
General Albertone did. It is reported  
that King Humbert approves the duel  
between the two princes on the ground  
that it will bring the quarrel to a defi-  
nite close."

**INDIA SITUATION THREATENS.**

Reported Complicity of the Afghan Ruler  
with the Recent Rising.

London, Aug. 14.—The news of sus-  
pected Afghan intrigues in India is  
very seriously regarded here. The British  
newspapers published in India had  
already discussed the possibility of the  
Ameer's complicity in the risings of  
tribesmen recently. It was reported  
some time ago that he had sent thou-  
sands of copies of his book on the  
"Jehad," or religious war, to the native  
Indian regiments, while anonymous let-  
ters appeared in the Indian native press  
glorifying the Turkish victories as "Is-  
lam's rising star," and declaring that  
the Ameer was ready to come, like the  
glorious Mahmud Sabuktigin of yore,  
to rid India of the thralldom of the Chris-  
tian yoke; bidding all the faithful to be  
prepared, and asserting that the riots  
at Chitpur were really a preliminary  
trial of Mohammedan strength, care-  
fully organized by the highly educated  
real leaders of the community.

While the authority of the Afghan  
Ameer over the frontier tribes is very  
weak, it must be remembered that the  
Afghan general, Gholam Hajdair, com-  
manding at Ashmar, who was in con-  
stant communication with the mullah  
who led the attack on Fort Shabdkar  
last Saturday, is the Ameer's chief and  
most trusted commander, and taking  
into consideration the symptoms of un-  
rest near Peshawar since the attack  
on Camp Malakand the Indian govern-  
ment will be well advised if it makes  
preparations to meet all eventualities.

When the two reserve brigades have  
been concentrated at Rawalpindi the  
government forces in the Punjab will  
be strong enough to make operations  
possible in any direction throughout  
the whole extent of the northwest. Gen-  
eral Blood has two full brigades in  
Swat. General Elles has a similar force  
in the vicinity of Peshawar. Another  
reserve brigade is between Mardan  
and Rawalpindi; and this is exclusive  
of the Tochi field forces.

**RIOTOUS MODERN WOODMEN.**

Members of the Popular Society Take the  
Popular Plan of Getting There.

Fulton, Ill., Aug. 14.—Rock Island  
Woodmen and others, with a train of  
three coaches, baggage car and two box  
cars, arrived here yesterday and tried  
their old trick of stealing the books of  
the office of Head Clerk Hawes, of the  
Modern Woodmen of America. Fulton  
was ready; a fire alarm was sounded,  
and lines of hose laid when they arrived.  
The first break of the Rock Islanders  
was to cut the hose. A fight followed,  
guns, revolvers and stones being used.

A partial list of the injured is: Will  
Bennett, city marshal, head out, be-  
lieved to be fatal; W. H. Flanagan, head  
badly cut; James Carrier, head cut; Ed  
Bare, head and arms injured—all of  
Walton; Chris Miller, of Lyons, Ia.,  
head cut; P. J. Casey, of Moline, badly  
injured on head, and many others, in-  
cluding several Rock Islanders.

The track is torn up each side of the  
trains, and Deputy Sheriff Farley has  
arrested Head Attorney Johnson, of  
the Modern Woodmen of America, and  
a number of others. The end is not yet  
in sight.

An injunction against the office of  
Head Clerk Hawes has been issued by  
Master in Chancery McPherson, of  
Sterling, and served on Attorney John-  
son, who is under arrest here on charge  
of riot. Anthony Bastian and G. W.  
Clendenen, of Fulton, directors of the  
M. W. A. in 1890, when the board was  
illegally reduced from thirteen to five,  
have taken possession of Head Clerk  
Hawes' office as directors of the order.

NORTHERN FARMERS.**

Almost every variety of grains and grasses  
grown in the North can be successfully grown  
in the South, but the crops that give best re-  
sults for the money invested and labor ex-  
pended are fruits and vegetables. Cotton is no  
longer king in the South. The wonderful  
change may possibly have been brought about  
by the large number of Northern farmers that  
have located at so many points on the Illinois  
Central and the Yazoo & Mississippi Valley  
railroads in the States of Kentucky, Tennessee,  
Mississippi and Louisiana, and carried with  
them the

not far distant when this locality will supply  
the early markets of the North and North-

**DEATH'S DOOR.**  
Ed Napier Was Snatched by Local Physicians.  
Sunday, July 28, Captain Ed Napier, employed as master of Studebaker's line of pleasure boats at Warsaw, Ind., was a rusty nail into his left arm. Local physicians cauterized the wound and no serious results were anticipated. A week later blood poisoning developed and the captain's condition became so alarming that his employer retained the services of an eminent Cincinnati physician. No relief was afforded the patient and he was advised to return home, which he did, arriving at his country residence two and one-half miles east of this city on the Watervliet road last Monday. The captain had suffered from tetanus, the spasms being persistent and grave, before coming home, and the day of his arrival here he experienced three violent convulsions. Dr. Bastar was called immediately and began a system of treatment. Tuesday the patient had several more convulsions and on Wednesday, accompanied by Dr. Bostick, Dr. Bastar made three incisions in the afflicted arm, having first placed the captain under the influence of chloroform. Upon recovering from the effects of the drug the patient had another spasm which proved the last and at present every symptom indicates the captain to be convalescent. The Warsaw physicians were disposed to amputate the captain's arm, claiming that it was the only possible way to save his life. The patient objected, insisting that he would rather lose his arm. When the local physicians administered chloroform Wednesday the captain suspected that they intended to amputate his arm and he had his mother remain in the room to prevent it if the physicians attempted the act.

**Trouble Caused by an "L."**  
Editor Clugston of the Spiketown Blizzard looked out of the front window of his office, hurriedly grabbed his hat and darted out through the back door, says the Chicago Journal.  
The last issue of The Blizzard had contained a personal item to this effect: "Our young friend, George Corbinson of Thatcherville, was in town again last Sunday. Rumor has it that he will soon lead to the altar a beautiful belle of Spiketown. George is one of the solid young men of our neighboring city."  
Editor Clugston had written it "solid young men," but he knew it would be of no use to try to explain the mistake to the large, athletic young woman who was approaching the office.  
And so when Miss Euphorbia Lickladder, the acknowledged belle of Spiketown, walked in at the front door a few moments later and inquired in a deep, tragic voice for the editor, Mr. Clugston was emerging from a back alley 2 1/2 blocks away and making for the open country.  
**Reward the Rogue.**  
Von Moltke was an early riser and loved early risers. Once, while roaming around his Silesian estate at daybreak, he found a peasant woman bearing on her back a sack of potatoes which she had just dug, making a load heavy enough for a mule. "Here's a thaler for you," said the great field marshal. "You see, the early bird catches the worm." Afterward he found out that she was a night thief who had ravaged his fields persistently, but whom his steward had never got up early enough to catch.

**Boils.**  
A person suffering with boils should eat chew pastry, gravies and every kind of meat excepting lean mutton. The boils may be brought to a head by using a warm poultice of camomile flowers or boiled white lily root, by fermentation with hot water, or by stimulating plasters.—Good Housekeeping.  
**A Sleep Inducer.**  
Hicks—Did you hear about Macklin? They called the Rev. Mr. Dulley to his bedside last evening.  
Wicks—You don't mean to say he is in a dying condition?

**Wrong Food at Bottom of Cholera Infantum.**  
**Diarrhoea Should Never be Allowed to Run On.**

**Put the Child at Once on Diet of Lactated Food.**  
With cholera infantum raging as it is East and West this summer, it is appalling to any one who understands the subject, to see the carelessness of parents and nurses in the matter of infant feeding. It is not enough to merely select a pure nourishing food. It must be acceptable to the delicate, weakened stomach of the little one—high temperature makes it difficult for young children to digest only the most easily assimilable food without irritating their intestines into diarrhoea—food must be taken in sufficient quantities and with relish to keep the child strong, well and growing. Lactated food is made with the ex-

press intention of forming a reliable infant food and a perfect substitute for healthy mother's milk. An infant likes it. Fretful, peevish babies grow strong, ruddy and healthy on it. It has the unusual virtue of inducing delicate babies to take an abundance of nourishment when other foods disagree with them, and when retarded growth, feebleness and intestinal irritation threaten the poorly-fed child. Mothers and nurses who have used lactated food all agree that it best supplies the materials for baby's rapid growth and development. It is prepared with a regard to purity, cleanliness and freedom from any possible source of contagion that merits all the praise that has been so lavishly bestowed upon it by parents and physicians. Lactated food has tided thousands of babies through the hot, sickly days. It should be in the hands of every parent. The ill effects of the intense August heat are far reaching. Many little ones droop and pine, without appetite and strength. Their usual diet fails to nourish, or more often is wholly rejected. In this weakened condition the mistake of overfeeding, that anxious parents too often fall into, instead of nourishing the little ones, only brings on diarrhoea. And diarrhoea, with the temperature high up, results in cholera infantum. The most carefully, intelligently guarded children are those fed on lactated food. Babies, when weaning, do not throw it up. Puny ones show a decided and immediate gain. Their steady, healthy growth is due to this rich nutritive that is relished even in the hottest weather. Lactated food brings sound sleep. It checks all wasting disorders during hot weather. Every year lactated food saves thousands of lives. A baby's duty is to keep strong and well. The parents' duty is to give the infant the best food in the world—that is lactated food.
